Cycling is Fun! But it also requires caution and attention when cycling in the city. Wearing a helmet, and following the pedestrian rules is necessary to be safe and to avoid accidents. Bike riders of all ages must obey traffic laws and respect the rights of pedestrian users. Wearing a helmet while riding a bicycle is the best way to reduce the risk of serious injury. This map will help you plan your rides that you can feel comfortable and safe. Remember to be respectful and patient to the others as well.

To the right are some of the rules that you need to keep in mind when riding your bike. The rules are important for both the safety of all riders and pedestrians. For more information, you can visit the following websites:
