

Airport Layout Plan Update for Colonel James Jabara Airport

Wichita Airport Authority

May 5, 2020

Background

- The current Master Plan and Airport Layout Plan was published in 2005
- FAA planning regulations have changed
- Development has subsequently occurred leaving less land available for development which requires a purposeful approach to future growth

Funding and Grant

- Study cost at \$296,590
- Consultant is Coffman Associates
- Additional funds of \$150,000 available this year from another Kansas airport not able to use their federal entitlement grant funds
- FAA AIP Grant at 100%
- Amount the Authority pays out of pocket is \$0

Recommendation

- Approve the project budget, consultant agreement, grant application, acceptance of funds and authorize the Director of Airports to sign all documents related to the grant
