

Construction Funding and Change Order Limit Adjustment for Improvements to Pawnee Street, 119th St to 135th St (District IV)

Public Works & Utilities/Engineering

June 2, 2020

Construction Funding for Improvements to Pawnee, 119th St to 135th St (District IV)

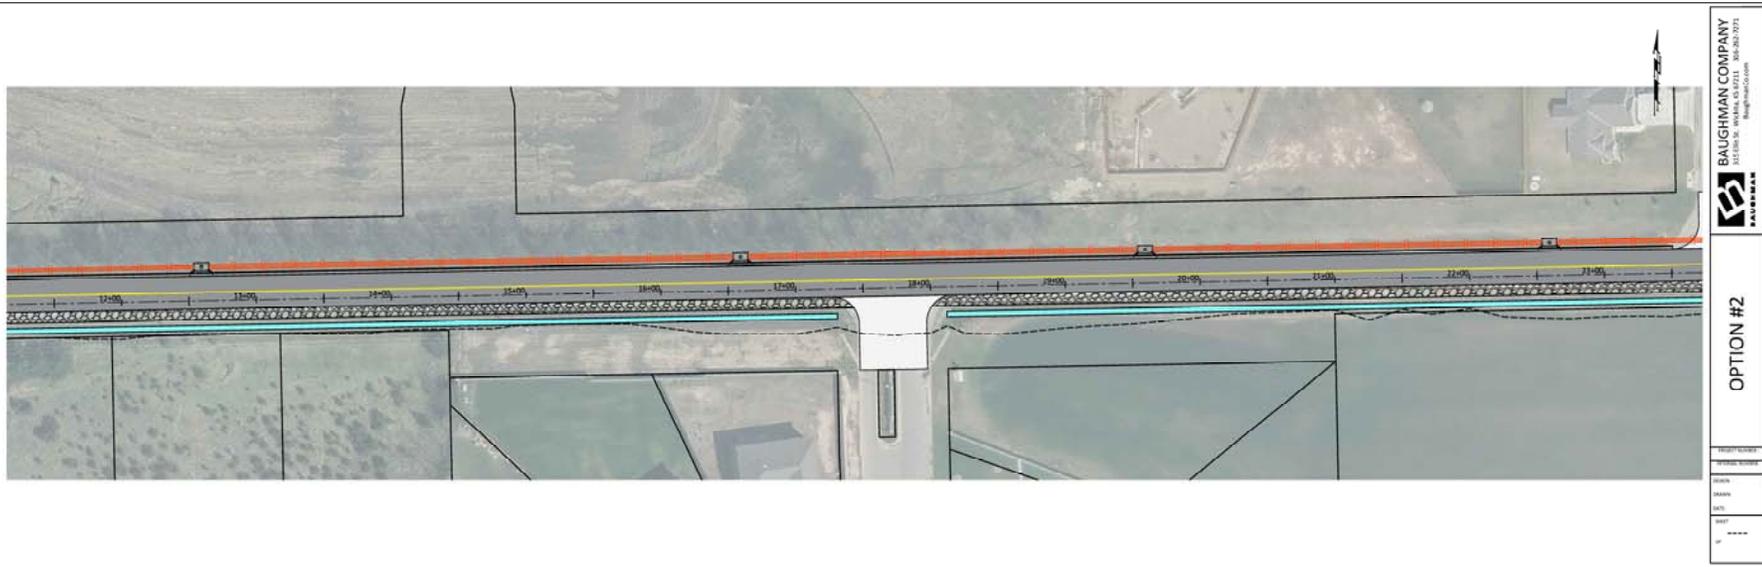

- **Background:** On August 20, 2019 City Council approved a design agreement and initial funding for the project. On November 4, 2019, DAB 4 approved the design concept, and City Council did the same on December 10, 2019.
- **Analysis:** The current roadway is asphalt mat with steep ditches. The proposed improvements will improve safety and drainage by adding curb and gutter on the north side with underground storm sewer improvements and an improved shoulder on the south half with capabilities of adding an additional lane in the future.
- **Financial Considerations/Recommended Actions:** The existing budget of \$300,000 was approved on August 20, 2019. Staff recommends approving \$1,700,000 from the 2019-2028 adopted Capitol Improvement Plan, for a total budget of \$2,000,000. Staff also requests an increase of the change order limit to 6% of the bid (approximately \$102,000) for staff approval. Adopt the amending resolutions, and authorize the necessary signatures.
