1. Pedestrian Paths	No accessible path of travel.	15.6.5 1 (GAD AAG FR)	All paths in this park are dirt/grass surfaces. There are a few exercise locations along a grass pathway and one playground area. However, there are no accessible paths leading to these facilities and there is no parking, sidewalks, or drop-off areas for an accessible path of travel to originate from. An entire renovation would be necessary to make the few existing facilities accessible. Including origination points from streets that have no pedestrian travel. Due to these circumstances; and due to the fact that other parks will be accessible in close proximity to this park, we do not recommend making this park accessible. We feel that Title II's program access provisions will be adhered to since other parks in close proximity will offer similar experiences. Make this park fully accessible according the play facilities final rule. (Recommendation from WAAB member).	V L	L	M	1 2 3 4 5	\$20,000	Title II Technical Assistance Manual	We are in full agreement with the consultant's views about this park. Consequently, no structural modifications will be undertaken in this facility.	N/A	N/A (cmk)
