Volume charges shall not apply to flat rate services which have been properly established with the Wichita Water Utilities.

A. AVERAGE WINTER CONSUMPTION

Average winter consumption (AWC) shall be defined as the arithmetic mean of monthly consumption computed by adding the metered consumption on bills rendered during the months of December, January, February, and March and then dividing this sum by the number of billings rendered during these same months. Each customer's AWC shall be recalculated in April of each year. Metered consumption charges for the ensuing twelve months shall be computed utilizing the AWC as calculated each April, apportioning usage among the applicable rate blocks as designated below. In those instances where no consumption data exists for the calculation of an AWC for particular customers, the director of public works & utilities shall determine the most appropriate method of establishing average winter consumptions for such circumstances. The minimum monthly AWC for any metered service sized one (1) inch or less shall be 6,000 gallons. If a billing period of greater than one month (defined as days of service within twenty

eight to thirty one days) is used, the actual or minimum AWC shall be adjusted accordingly on a daily basis.

The consumption as recorded on billings rendered in the months of December, January, February and March for both the primary and lawn service accounts shall be used to calculate the average winter consumption used in apportioning water usage among the volume rate blocks whenever lawn service accounts are associated with primary service accounts.

IV. LATE CHARGES

An amount equal to one and one-half percent of the unpaid balance will be added to all bills not paid within twenty-five (25) days of the date of issuance.

V. MISCELLANEOUS CHARGES

In instances where the service is actually terminated and later reinstated, the customer shall be charged an additional thirteen (\$13.00) dollars to cover costs of reinstating the service.

If a customer requests inspection and testing of a meter a testing fee shall be paid. If upon such examination and test conducted in the presence of the customer, or the customer's representative, the meter is found to be inaccurate according to the standards of the American Water Works Association, a meter will be substituted and the adjustment of the water bill for the preceding billing period shall include a credit for the testing fee.

Where water service is turned on and shut off in a period of less than one billing period, the billing shall be computed as if service was rendered for an entire billing period. Any customer desiring to discontinue water service temporarily must make request therefor at the office of the department not less than two working days prior to the date on which the service is desired to be discontinued. An additional fee of thirteen (\$13.00) dollars shall be required for the reconnection of the lawn service at the same location.

Other charges and billing for special services, such as but not limited to administrative fees, account origination fees, damages and/or vandalism to Utility infrastructure and

appurtenances, etc., shall be determined by the director of public works & utilities and subject to review and change at any time.
