BROADBANDING

A survey developed by the American Federation of State and Municipal Employees showed that more than two-thirds of state government HR Directors indicated that they would like to change their state's salary and classification systems. The survey found that:

- HR Directors believe that their states have far too many job titles;
- There are too few employees per job title; and
- Classification and compensation systems are too old.

Over the years the City of Wichita has also fallen into these same issues, of 455 job titles with an average of 3 – 6 employees per title, and an exempt compensation system that is over twelve years old. In order to address these concerns, the City of Wichita is turning to a new system known as "broadbanding." Broadbanding refers to the adoption of a job classification structure with significantly fewer classifications than a traditional system. Under a typical broadbanding plan, jobs are grouped into broad occupational families, based on similarities in attributes such as the tasks performed, required skills, career progression, increased responsibilities, and the work process. These groups form the basis of new, "broader" classifications. The combining of job classifications reduces the number of pay grades and increases the range between the bottom and top rates of each grade.

Why Broadband?

Broadbanding is an approach to compensation that focuses on performance and market, uses a few, wide salary bands to deliver pay, and emphasizes management pay decisions. This new system is intended to be an improvement for employees and their supervisors, and its advantages include:

- Broadens the focus from job content and scope to include knowledge, skills and abilities of the individual performing the work, thus enhancing the pay for performance system
- Expanded horizontal mobility for employees without reclassification process
- Maintains a competitive job and compensation structure to aid in recruitment and retention
 - Internal and External salary equity – more market based
 - Introduces flexibility to respond to labor market trends
- Moves from a seniority pay approach to a more performance and skill based approach, which encourages employees to broaden their skills/abilities
- Improves employee career development opportunities
- Involves employees in decision-making, through individual growth

Due to complexities of FLSA overtime regulations a broadbanding scheme will not be pursued for non-exempt positions.

Implementation Process

The first step to the implementation of a broadbanding system will start with the Executive Pay Plan. The following table shows the new broadbanding plan for pay ranges 002 – 007 and will take effect with the approved revised 2004 – 2005 budget.

New Pay Range	Old Pay Ranges	Minimum	Midpoint	Maximum	% Difference from min.
BB003	005 - 007	\$60,176	\$90,264	\$120,352	100%
BB002	002 - 004	\$74,543	\$111,795	\$149,046	100%

Six ranges from the old system are now collapsed into two bands. Reducing the number of ranges by half is common in broadbanding, as is the 100% difference between the top and bottom of the bands. Band BB002 includes the old pay ranges 002, 003, and 004. Band BB003 includes all other positions that were in ranges 005, 006, and 007.

BROADBANDING

The next step to implementation of the broadbanding system for exempt positions will incorporate the following tasks, with a target implementation date of July 2005:

1. Position Classification – Place Positions into the five new bands
 - Perform Consultant Position Review and Classification study on Exempt Positions – at an approximate cost of \$50,000.
2. Develop Internal Salary Equity – Address salary compression issues
 - Market salary survey of exempt positions, as part of the Position study above.
3. Develop Pay Progression Plan – How employees will move through the Bands
 - Performance Evaluations
 - Promotions
 - Bonuses
