

Bat Boxes

Completed Fall 2004

Eagle Scout - Dean Nestor

Dean Nestor built a nursery-style bat box and installed it near the creek in Herman Hill park as part of his Eagle project. He has also placed one at the new Vulcan wetlands, at Heights High School, and at two additional locations. The box provides additional habitat in the park as well as creates a discussion point on wildlife, migration, and adaptation. The Cheney Times-Sentinel featured Nestor in its article, "Batman."
