NEW BUSINESS

4. Mt. Vernon Improvement, between the Arkansas River and Broadway

Gary Janzen, Public Works Department, will report on the reconstruction of Mt. Vernon between the Arkansas River and Broadway. Poor drainage conditions along the roadway have resulted in a significant deterioration of the existing pavement. The street is located in a 571-acre drainage basin that does not have an adequate storm water sewer system. The existing two-lane street will be removed and replaced with a new two-lane street with left turn lanes at the east and west approaches to Broadway. New traffic signals will be installed at Broadway. The project includes the construction of a major drainage system to improve drainage along Mt. Vernon and the surrounding area. The project is planned to begin in spring, 2008. Mt. Vernon will be closed during construction.

Recommended Action: Staff recommends that the District Advisory Board approve the project.
