

DISTRICT III ADVISORY BOARD

AGENDA

May 4, 2011
7 p.m.

Wichita WATER Center
101 E. Pawnee

ORDER OF BUSINESS

- Call to Order
- Approval of minutes April 6, 2011

PUBLIC AGENDA

1. Scheduled Items
No scheduled items

2. Non-Scheduled Items

Recommended Action: Receive and file.

STAFF REPORTS

3. Community Police Report

Community Police Officers for District III will report on specific concerns for the area.

Recommended Action: Receive and file.

4. Wichita Fire Dept. Report

WFD staff for District III will report on specific concerns for the area.

Recommended Action: Receive and file.

NEW BUSINESS

5. Animal Control Update

Dennis Graves, Animal Control Supervisor, will report on activities at Animal Control since the Department moved to the Police Department.

Recommended Action: Receive and file.

6. Southeast Boulevard Bridge at the Drainage Canal

Gary Janzen, Public Works Engineering, will present the plan for the Southeast Blvd. Bridge. The bridge at Southeast Boulevard and the Drainage Canal near the I-135 Freeway is deteriorated and in need of rehabilitation. The work will consist of restoration of the bearing devices that support the bridge deck, reconstructing the abutments, replacing the expansion system and upgrading the guard fence to current safety standards. The project is planned to begin this summer and be completed by year-end. The bridge will be closed to traffic during the construction period. The project budget is \$1,000,000.

Recommended Action: That the District Advisory Board recommend approval of the project.

7. **Kansas Turnpike Bridge at the Big Slough (south of 55th Street South, west of Hydraulic)**
Gary Janzen, Public Works Engineering, will report on this project. On September 15, 2009, the City Council approved a project to improve drainage of the Big Slough at the Kansas Turnpike. The existing Kansas Turnpike bridge at the Big Slough is undersized and does not provide adequate capacity for conveyance of the 1% chance (100-year) storm event. The project will consist of replacing the existing three-cell (10'x8') box culvert with a three-cell (16'x12') box culvert. This increased capacity will allow proper conveyance of the 1% chance storm event, lower flood elevations, and remove approximately 150 homes from the floodplain, upstream of the structure. Recent improvements downstream of this location will accommodate the larger capacity of the new bridge. The project is planned to begin this summer and be completed by year-end.

The project budget included in the 2009-2018 CIP is \$2,000,000, with \$1,600,000 in GO bonds and \$400,000 in Special Assessments.

Recommended Action: Receive and file

BOARD AGENDA

8. **Updates, Issues and Reports**
Opportunity for the Council Member and the District Advisory Board members to report activities, events or concerns in the neighborhoods.
- a. Council Member Clendenin
 - b. DAB members

Recommended Action: Receive and file.

9. **Adjournment**
The next meeting for the District III Advisory Board will be at 7 p.m. on June 1, 2011, at the Wichita WATER Center, 101 E. Pawnee.
