

**District III Advisory Board Minutes**  
**September 5, 2007**  
[www.wichita.gov](http://www.wichita.gov)

The District III Advisory Board meeting was held at 7 p.m. at the Wichita Water Center at 101 E Pawnee. Eleven District Advisory Board members were in attendance; eleven City staff and 115 members of the public were present (103 signed in).

**Members Present**

Teresa Cook  
Judy Dillard  
Charlotte Foster  
Jim Gulick  
Joann Hartig  
Paula Hearn  
John Kemp  
DeWayne Kitchen  
Georgia Lambke  
Billie Tucker  
Bill Ward  
Council Member Jim Skelton

**Staff Present**

Officer C. Cavanaugh, Patrol South  
Officer Sarah Voyles, Patrol South  
Lt. Clark Wiemeyer, Patrol East  
Officer Justin Whyte, Patrol East  
Officer Doug Mitchell, Patrol East  
Janet Johnson, City Manager's Office  
Jim Armour, Public Works  
Cynthia Berner Harris, Library  
George Kolb, City Manager  
Derrick Slocum, Planning Department  
Steve Banks, Planning Department

**Guests**

Listed on the last page

**ORDER OF BUSINESS**

At 7:05 p.m. **Council Member Skelton** called the meeting to order. The meeting minutes from August 1, 2007, were approved as submitted.

**PUBLIC AGENDA**

**Scheduled items**

**Michael Duxler, Marriage is for Keeps**, was a no show.

**Non-Scheduled items**

No items

**STAFF REPORTS**

**Community Police Report**

Police volunteered to forego their reports in light of the full agenda and large crowd present at the meeting.

**Gulick (Kemp)** moved to strike the Community Policing reports.

**The motion passed 11:0.**

## **NEW BUSINESS**

### **47<sup>th</sup> Street South and I-135 Interchange**

**Jim Armour, Public Works Engineering, Barbara Friedman and Dale McGregor, HNTB, and Steve King, KDOT**, presented information on the status of the 47<sup>th</sup> St. Interchange. **Friedman** explained that a study of the Interchange had been completed in 2004, but had simply lain idle until the recent interest by Southfork Investment in developing the area southwest of the interchange. She also pointed out that KDOT had designed this project as one of its top priorities.

**McGregor** said that currently, just under 30,000 cars a day travel the interchange and they are projecting that with improvements in the area that will increase to 40,000 vehicles a day. He reviewed the preliminary concept plan dated 9-5-07 and pointed out the proposed stop lights at Emporia Street and at both terminals of the interchange. He said the four lanes on 47<sup>th</sup> Street would taper down to two lanes heading east, and that the Ida Street access would have to be moved.

**Judy Dillard** inquired about pedestrian access. **McGregor** said they are proposing a five-foot sidewalk on the south side that would run from McDonalds and 47<sup>th</sup> and Broadway east to Laura Street.

**Jody Bennett, 1709 E. 48<sup>th</sup> St**, asked when they could start. She also pointed out that it is a dangerous situation due to the deterioration of the interchange. **McGregor** said that funding has been approved for the design, but not for construction.

**Roger Hahn, 1924 E. Sunrise**, pointed out that under the preliminary concept plan, there is a proposed street cutting through the church parking lot. **McGregor** reminded everyone that this is just a preliminary concept plan and there is still a lot to be worked out.

**Friedman** told everyone that a public meeting has been scheduled at the WATER Center on Sept. 25 from 4 to 7 p.m. and staff will be available to take input and answer questions.

**Judy McReynolds, 2634 S. Washington**, wanted to know where the proposed shopping center development would be located. **McGregor** said west of the turnpike.

**Kerin Smith, 2240 S. Crestway**, asked how motorists who frequent the restaurants located along 47<sup>th</sup> street will manage to get out and head back east. **McGregor** said they are proposing a frontage road that will go all the way east to Emporia, where a stoplight will be located.

**Council Member Skelton** asked about the Comprehensive Transportation Plan (CTP). **King** said it ends fiscal year 2009. He wanted to know if there are alternative funding mechanisms outside the CTP, especially since the interchange is structurally deficient. **Bennie Tarverdi, KDOT**, said that under the bridge program, they only have funding to repair bridges, not replace them.

**State Representative Jim Ward, 3100 E. Clark**, asked if the Legislature were to pass a highway plan next year, what is the soonest that the 47<sup>th</sup> Street interchange could be built. **King** said surveys for the design are currently underway so in the spring of 2009, the project could be ready to let for bid. There would be right of way and utility work that would have to be done in late spring or early summer and then they could begin to turn dirt on the project.

**Rep. Ward** asked when KDOT plans to come before the Legislature with their plan. **Katie Blakemore, HNTB**, said she expects that to occur early in next year's session.

**B.J. Clark, 1411 E. Berkley**, asked what kind of special assessments would be imposed on nearby property owners. **Council Member Skelton** said this project would not be funded with special assessments.

**Jerry Mason, 2622 Larkin**, asked KDOT when they were going to do the railroad crossing improvements at Pawnee and K-15. KDOT representatives were not prepared to discuss rail crossings. **Council Member Skelton** said they are working on the rail crossings in the north end of the city first. He pointed out that the K-15 and Pawnee crossing has been designated the most dangerous crossing in the city due to the amount of vehicle traffic and the 50 plus trains a day that pass through the intersection.

**Council Member Skelton** directed the discussion back to the 47<sup>th</sup> Street interchange and said that he had also made an earmark request for the project to **Congressman Todd Tiahr**.

**Action:** Receive and file.

### **Offender Re-entry**

**Saundra Haas, Re-entry Coordinator, for the Sedgwick County Re-entry Program**, presented information on the progress of the program. **Haas** said that the majority of people who are leaving prison are being released in Sedgwick County, with Wyandotte and Shawnee counties being the other two largest areas.

She provided a history of the program, how it came to be, how the task force was established, who the target population is, what the program staff consists of and what they do, and the key elements of the program.

**Haas** said they have seen a lot of good things happening with their program participants; they are focusing on family integration, case management, gang intervention, substance abuse treatment and housing issues.

**Joann Hartig** asked if the participants want to be in the program. **Haas** said the program is strictly voluntary.

**Georgia Lambke** wanted to know if the prisoners receive any kind of training or counseling while they are in prison. **Haas** said all of that programming was cut in the 1980s and was not re-instated until the mid 1990s.

**Jim Gulick** said that back in 2002 he served on a focus group about prisoner re-entry at WSU. He said employment could be a real issue because former prisoners can't be bonded. **Haas** said things have changed significantly since 2002 and that now they can be bonded.

**Dillard** said she is retired from the WSU Human Resources Department and she hopes some attitudes have changed and related a story about a former prisoner who had tried to get a job at WSU, but didn't have a driver's license and work release wouldn't allow him to get a driver's license, so it was a bad situation. **Haas** said one of the most dramatic changes that has occurred

within the system, is that now every effort is made to have prisoners pay off their fines, get copies of important documents such as birth certificates and take care of suspended driver's licenses, before they ever get out of prison.

**Teresa Cook** wanted to know what the program's success rate is. **Haas** said they admitted their first client the end of April; they now have nine clients they are serving and none of them have been sent back to prison.

**Janie Hatchett, 2246 S. Greenwood**, wanted to know if the program could be made mandatory. **Haas** said no, that the program isn't designed for that.

**Action:** Receive and file.

### **Library Master Plan**

**Cynthia Berner Harris, Library Director, and George Kolb, City Manager**, provided the first annual update on the Master Plan.

**Berner Harris** said there is currently no money in the 10-year plan for Southeast Wichita, but that doesn't mean that the Library Board isn't working on it.

She said there are several property parcels in the Pawnee and George Washington Blvd. area that are available and the new committee will be looking at those parcels for feasibility. She went on to say that it becomes a philosophical issue of when is the best time to buy property.

**Berner Harris** said that she agrees that the quality of library service is not what it should be in southeast Wichita; she cited the library located in Colvin Elementary School which has been closed the past two summers and where 29 percent of the City-donated resources have disappeared. She said her staff is working with the school staff on these issues. She also mentioned that Colvin and Linwood (actually located in District 1) have utilization numbers on the lower end.

Southeast Wichita is slated for a new library in 2016.

**Bill Ward** wanted to know when the new committee would establish the criteria and make a decision on the parcels. **Berner Harris** said she didn't know how quickly the committee would reach a conclusion. **Ward** said District 3 is used to 20 year plans and still be working on them 40 years later. He wanted to know how they could guarantee Southeast Wichita will be on the list for a new library. **Kolb** said he couldn't promise that because those decisions are Council driven and there is no way to predict who will be on the Council and what their priorities will be.

**Gulick** asked for clarification on the Linwood utilization numbers. **Berner Harris** said the activity for that library falls on the lower end, but there are contributing factors such as it is difficult to find, and the hours of service are limited. **Gulick** suggested that they put up another sign because the only sign advertising the library is located on Hydraulic and you can't access the library from Hydraulic. **Kolb** said he would address this situation tomorrow.

**Berner Harris** said library needs are based on several criteria including population, current use, size of collection, etc. **Gulick** asked if when you have libraries that you can't find, doesn't that skew the criteria.

**Hartig** said it seems that homeless people mainly utilize the Central Library and wanted to know what's going to be done about that. **Berner Harris** said anyone could use library facilities as long as they are respectful of the patrons, the building and the materials in it. She said anyone who is not, will be asked not to return.

**Dillard** asked what the closing date is for Linwood. **Berner Harris** said they don't have one; they won't close a facility until a replacement is available.

**Kolb** said the advantage to having a master plan is that it helps you look at pros and cons down the road.

**Cook** wanted to know what would happen to the existing Central Library location when a new one is built. **Berner Harris** said the Library Board has no authority regarding that.

**Hartig** asked what factors usage numbers include. **Berner Harris** said the number of items checked out; questions that are answered, the number of people attending programs, computer usage, etc.

**Hoyt Hillman, 3705 E. Mt Vernon**, said that we are such a web-enabled community; the branch libraries should consider doing more with that. He also pointed out that the Master Plan's service circles fail to represent the elderly and children in Southeast Wichita who can't afford the resources that the elderly and children can who live in more affluent neighborhoods on the east and west sides. He said the people in the South area need the services and they have been ignored.

**Jimmydale Grey, 307 W. 32<sup>nd</sup> St. S.**, asked about Colvin Library Operations. **Berner Harris** said the City gives \$5,000 to that library and USD 259 provides the space and the librarians.

**Elena Ingle, 3608 Meadow Lane**, said they have such a small amount of literature at Linwood that she usually has to go downtown, rather than pay the fee to have it delivered. She also wanted to know if the committee meetings about the parcels would be open to the public. **Berner Harris** said the Library Board meetings are open to the public, but typically committee meetings are not. **Council Member Skelton** said he feels like any meetings comprised of Council-appointed representatives should be open to the public.

**Al Gann, 204 W. Patterson**, asked why West Wichita always gets everything ahead of South Wichita. **Berner Harris** said the West side is more heavily populated (based on library use, not actual population).

Another citizen said if South Wichita actually had a real library, they might use it.

**Betty Strickland, 1302 S. Galena**, said she head the plan for the new Central Library looks like some kind of monument and has a lot of bling. **Berner Harris** said there is not yet a plan for the Central Library.

**Kerin Smith, 2240 S. Crestway**, agreed that Southeast Wichita is the most underserved area of the city. She said Colvin doesn't really serve the area she lives in and Linwood is about twice the size of her house. She said it would be very nice to have a library in Southeast Wichita with a meeting room.

**Smith** went on to say that the Pawnee and George Washington Blvd. location is a great idea because it's within walking distance of Planeview and it is on main arterials. She said she would like to see the parcels purchased now and it would amount to such a small part of the City's total budget. **Berner Harris** guaranteed that the committee would study the area, but pointed out the Library Board does not have the ability to acquisition land.

**Lambke** pointed out if the land is purchased now for something that's not going to be built until 2016, it will go off the tax rolls and the City will be responsible for maintaining and mowing it.

**Kemp** said the downtown library computer department is one of the best he knows of. He said he utilized the service about 10 years ago to become more educated on computers.

**Charlotte Foster** wanted to know why the Library Board started over. **Berner Harris** said the appointments are for two years and theoretically, if a Council Member didn't re-appoint, the Library Board could be comprised of all new people every two years.

**Council Member Skelton** asked how much it would cost to build a library in the Southeast area. **Berner Harris** said the cost would be \$1.9 million for a 7,500 square foot facility and that doesn't include the cost of the land.

**Council Member Skelton** pointed out that the new downtown library is estimated to cost around \$30 million. He suggested that the City only spend \$25 to \$28 million on that facility and build the Southeast Library.

He also posed the question "What if neighborhood libraries were a priority over the downtown one?" He said at least we currently have something downtown, unlike Southeast Wichita. **Skelton** said Colvin feels like a school library; that some people don't want to go to a school library in Planeview and sometimes can't even find it. He added that he believes staff does the best they can.

**ZON2007-36: City zone change from SF-5 Single family residential, TF-3Two-family residential and LC Limited commercial to MF-29 Multi-family residential**

**Derrick Slocum, Planning Department, and Tim Austin, Poe and Associates**, presented an application for a zoning change. The application area is approximately 3.41 acres of platted land zoned LC, TF-3 and SF-5, located west of South Broadway Avenue and south of 31st Street South. The application area is undeveloped, but has been platted with single-family lots. The applicant is seeking "MF-29" zoning in order to develop an apartment/multi-family development. The current 32<sup>nd</sup> Street South Circle right-of-way, through the south one-third of the application area, will have to be vacated to ultimately be a part of the application. The street is platted but has not been installed.

Property zoned LC and SF-5 abuts the subject site on the east and is partially developed with an American Legion Post. Farther to the east is property zoned SF-5 and GC all developed as a salvage yard. To the west, is property zoned LC, B and SF-5 which is developed with a group quarters, single-family residences and contains vacant lots. To the south of the subject site is SF-5 zoning developed with single-family residences. The property to the north of the subject site is zoned GC and SF-5 which is developed with car sales lot, a construction service, offices, apartments and a couple single-family residences.

In this particular area, there is a mix of uses and zones. Just within a four square block area, there are properties zoned LC, GC, LI, SF-5, B and TF-3. This rezone would eliminate the TF-3 and LC zoned property within the application area. The Unified Zoning Code (UZC) permits MF-29 zoning for up to 29 dwelling units (DU's) per acre, while TF-3 allows 14.5 DU's (with a conditional use) and LC allows 75.1 DU's per acre. As currently zoned, the subject site could potentially allow up to a total of 119 dwelling units. With the rezone to MF-29, the site would be allowed 99 dwelling units, a reduction of 20 dwelling units with a rezone. Also, the MF-29 zone permits building heights up to 45 feet while the LC zone permits building heights up to 80 feet. The proposed rezoning of the subject site to MF-29 would also buffer the single-family residences on the south and west from the salvage yard / car dealership, which fronts Broadway, but is currently visible due to the undeveloped subject site.

**Betty Strickland, 1302 S. Galena**, asked what they want to put in that location. **Slocum** said an apartment complex, possibly low-income.

**Al Gann, 204 W. Patterson**, said the American Legion tried this five years ago and it didn't work then and it won't work now. He said if they want to put something in there, it should be single-family homes. **Slocum** said the American Legion is not the applicant.

**Brian Slater, 3301 S. Wichita**, said he lives in the property across the street and he doesn't want to live across from low-income housing. He said it is unbelievable that they want to do this. Currently the crime rate in the area is very low.

**Donna Morris, 314 W. 32<sup>nd</sup> St.**, wanted to know how the protest petitions that were submitted would be handled. **Slocum** said he would turn them in to the City Clerk for filing, but that because there are three types of zoning currently and one of the changes would be a down zone, he wasn't sure how that would impact the process. He assured her that the protest petitions would mean something, he just didn't know about the one area.

**Council Member Skelton** said usually the protest petitions mean the application will come before City Council and will require a super majority.

**Gary Jantz, 213 W. Patterson**, asked with that many new people moving into one area, how do they propose to bring them in and out of the area? Wichita street already has parking problems.

**Tim Austin**, agent for the applicant, said the zoning application is not about tax credit housing that it is strictly about zoning. One citizen asked why the applicant isn't considering single-family housing. **Austin** said if there was a market demand for it, they would, but obviously there isn't a demand, or it already would have been developed.

**Council Member Skelton** asked if this was going to be low-income housing. **Austin** said, as I stand here today, no. He then explained the TIF credit works.

**Shirley Doramus, 1651 S. Waco**, asked if duplexes were an allowed use under multi-family zoning. **Austin** said yes.

**Jody Bennett, 1709 E. 48<sup>th</sup> St**, asked what price the apartments would rent for. **Austin** said he didn't know.

**Roman Koerner, 116 W. Patterson**, said even though the applicant claims this is about zoning and not low-income housing, once they get their foot in the door they will just move on through the process. He also inquired about rear access to the property on Patterson. **Austin** said the applicant would install solid screening fence.

**Brian Slater, 3301 S. Wichita**, said they aren't low-rent people and they don't want this in their neighborhood. He said low-income housing brings drugs and other crime in and he doesn't understand how they can come into his neighborhood and do this.

**Al Gann, 204 W. Patterson**, said they know what government low-income housing turns in to.

**Kemp** said he understood where they were coming from. When you talk low-income, you know your neighborhood is going to pot, he said.

**Gulick** said that he listened to the neighborhood concerns and he didn't disagree, but that the current zoning will allow for more than the revised will. He said if you buy property and you don't know what can be done next door to you, it's a mistake. He also pointed out that the current zoning allows for 119 units and the change would only allow 99.

**Lambke** asked if there are adequate schools in the area. **Austin** said when they go through this process the school system is involved and made aware, so they know about it.

**Dillard** said she agreed with **Gulick**. She said you have a chance with this change to make sure you have some buffers. She said there are certain rules in place and legally, building on this property can't be stopped. She said she was in favor of approving the zoning change with the exceptions that the Planning Department listed. She then reviewed the conditions, which include: Maximum height (as defined by the UZC) of the buildings shall be 35 feet for all structures. Solid screening, 6 to 8 feet tall, shall be required along all property lines when adjacent to or across the street from SF-5 zoning. Solid screening shall be provided around all dumpsters, per existing code requirements. Landscaping, per code, shall be required. 35-foot setbacks will be established along the south and north property line where adjacent to SF-5 zoning.

**Dillard (Gulick)** moved to recommend approval of the application with the changes as outlined and including the provisions of the protective overlay.

**The motion passed 6:5.**

**Action: Gave approval of the application, which will move forward to MAPC and City Council.**

## **BOARD AGENDA**

### **Updates, Issues and Reports**

**Foster** said a representative from the new Habitat for Humanity Store, located at Harry and Hillside, spoke at their last Neighborhood Association meeting. She reminded everyone about Neighborhood University and asked Council Member Skelton not to approve a water rate increase.

**Hartig** also reminded everyone about the sessions available at Neighborhood University and said her Neighborhood Association has a clean up scheduled for Sept. 22. She said they are also working on a grant for a bike path for the east side of the river.

**Kemp** reported that their cleanup is slated for Oct. 13 and he is going to be serving on an interview board at Patrol East.

**Dillard** reported her neighborhood has been quiet lately with very few problems.

**Council Member Skelton** welcomed the newest member of the board, **Billie Tucker** from Hilltop. **Tucker** reported that public works had recently hauled off a lot of bulky waste in Hilltop and that next Saturday more than 100 volunteers from Eastminster Church would be in Hilltop to help clear brush and clean up some of the areas.

**Ward** reported that Meadowlark is still working on the future of the Dry Creek parcels and pushing for a new library.

**Council Member Skelton** announced that WSU archeology has confirmed there are no known archeological sites in the Dry Creek parcels that were purchased by the City.

**Gulick** said Grandview Heights has their board elections at their last meeting and would like for Council Member Skelton to attend their next meeting.

**Lambke** reported that South City had a very successful clean up, but they have recently had two homicides in their area and are very concerned about that.

**Council Member Skelton** reported

- The East Mt. Vernon Neighborhood Association is going to be having an event and that all the DAB members were invited. **Janet** will send out information on it.
- The median located at Fortuna and Hydraulic will not be removed, according to Public Works Engineering, because the number of traffic accidents at that location does not warrant it.
- Hopefully the South Broadway Bridge will be temporarily opened soon. It takes a year to do the design.
- The next District 3 brunch is slated for Oct. 27 and will feature Deputy Chief Stolz who will talk about crime trends in District 3 and the increase in homicides.

**Action: Receive and file.**

### **Adjournment**

**Meeting was adjourned.**

The next regularly scheduled meeting for District Advisory Board III will be held at 7 p.m., October 3, 2007, at the Water Center at 101 E. Pawnee.

Respectfully submitted,

Janet Johnson,  
Neighborhood Assistant – District III
