

HOPE STREET CLUB EVERGREEN

Hope Street Youth Development (HSYD)

Is a leadership development program for middle and high school youth in Wichita, KS. The program is designed to empower youth with leadership skills that will shape their educational, career and life choices. With these skills in place they will be better able to contribute to their neighborhood, the city they live in, and the country now and in the future.

Our goal is to teach young people how to think, not what to think. **HSYD** believes that through academic study, youth organizing and leadership development we can make a difference with the young people here in Wichita.
