Middle, High School Students To Hold Graffiti “Painting Party”

About 30 students from Brooks and Stucky middle schools and Heights High School will team up with the Wichita Police Department tomorrow to paint over graffiti on a bridge in north Wichita, it was announced today by Patrol North Bureau Commander Captain Felecia Norris.

“This is an excellent example of another partnership between the Wichita Police Department and the community to remove gang graffiti,” said Norris.

“Everyone involved who has committed their time to this project deserves the community’s appreciation.”

The students will begin their painting project on the K-254 bridge over Hillside north of 45th Street North at 9:00 a.m. and end about noon. They will use recycled paint provided by the Sedgwick County Household Hazardous Waste collection center, and brushes, rollers, pans and safety vests provided by KDOT.

Media who wish to observe the day’s activities should do so from Hillside beneath the K-254 bridge.
