Projects with negligible operating impact are not included in this schedule.

Managing for Results (MFR) is a comprehensive approach to budgeting that focus on both the City-wide mission of “*providing an environment to protect the health, safety, and well being of all who live and work in the community*” and the individual Service missions, goals, and objectives. Rather than focusing on inputs and outputs, MFR establishes the outcome, or accomplishment of those goals and objectives, as the primary endeavor for the organization. MFR also promotes a strategic methodology for outcomes. MFR requires the 1) establishment, 2) usage and 3) report of performance measures; so that management, elected officials and the public can assess the degree of success the organization has in accomplishing its mission, goals, and objectives.

In implementing the MFR budgeting method, each service has accompanying performance measures, which tie back to missions, indicators, and eventually the five goals adopted by the City Council: 1) Provide a safe and secure community, 2) Promote economic vitality and affordable living, 3) Ensure efficient infrastructure, 4) Enhance quality of life, and 5) Support a dynamic core area and vibrant neighborhoods.
