I, ______________________________________________________________ have provided the following:

(Print your name as it is listed on your license)

I understand that I am responsible for meeting the fire and life safety codes to protect all persons in my home under my care from fire.

I have contacted my local fire department and building/zoning official and have met all local fire safety requirements. This year I notified the fire department closest to my home that I do child care in my home. The fire department I notified was: Fire Department Name _______________ FD Phone Number _______________

I understand that my basement or second floor can NOT be used for child care until I have written approval on file from the State/local fire officials. Once approved the basement may ONLY be used for child care if there are at least two separate and remote exits to the outside, only ONE exit can be an approved escape window.

I understand that I must be able to demonstrate that I can get everyone under my care, safely out of my home to a designated safe place within 4 minutes, and that I may be asked to demonstrate this ability in a fire exit drill. If children are located on the second floor, children must occasionally practice the use of the approved second floor fire escape window by going to the window and waiting for rescue.

I have working smoke detectors installed according to the manufacturer’s instructions on every level of my home in the pathways leading directly to the outside and in each sleeping room used by children in my care. My smoke detectors are tested monthly and records are kept for review. My smoke detectors are powered by 10-year lithium batteries or are hard-wired with battery back-up.

I have a written emergency plan for use in case of fire. All persons responsible for the care of children in my home are familiar with my emergency plan and can get the children safely outside to the designated safe place.

I understand all areas of my home may be inspected at any time by State/local officials to determine compliance with this Agreement.

I understand that an on-site inspection conducted by State/local fire officials may only occur once in the lifetime of the license. I understand that it is my responsibility to conduct an annual review of all fire and life safety code requirements.

I agree to follow all fire and life safety codes and standards as outlined within the Fire and Life Safety Agreement and as directed by the State/local fire officials when an on-site inspection is conducted.

I understand that a copy of this Agreement must be posted next to my license at all times.

I understand by signing this Agreement I have met all the requirements stated in this document. I understand that if inspected and found to be in violation, I may be subject to criminal or administrative action.
