**City of Wichita  
City Council Meeting  
January 5, 2016**

**TO:** Mayor and City Council Members

**SUBJECT:** 2016 Contract Renewal with Visit Wichita Convention and Visitors Bureau

**INITIATED BY:** Division of Arts and Cultural Services

**AGENDA:** New Business

---

**Recommendation:** Approve the contract between the City of Wichita and The Wichita Convention and Tourism Bureau, Inc. d/b/a Visit Wichita.

**Background:** Visit Wichita is on track to meet its primary goal of securing 140,000 convention room nights.

Significant conventions booked during 2015 include:

- 2016 Delta Sigma Theta Regional Conference
- 2016 Signature EquipoVision Summer Convention
- 2016 Society of Flight Test Engineers (SFTE), National Symposium
- 2017 League of Kansas Municipalities, Annual Conference
- 2017 Rocky Mountain Association of Student Financial Aid Administrators
- 2017 National Association of Black Storytellers, National Black Storytelling Festival and Conference "In the Tradition"

Wichita hosted 500 meetings during 2015, which had an economic impact of \$52.5 million on the local economy.

Visit Wichita successfully hosted major conventions such as:

- National Farmers Union Convention
- Delta Kappa Gamma Society International SW Regional Conference
- National Association of State Boating Law Administrators (NASBLA), Annual Convention
- LifeWay Christian Resources Seminars, Beth Moore Living Proof Live
- Special Olympics National Softball Tournament 2015
- Mountain Plains Museum Association MPMA/KMA Annual Meeting

As a result of unprecedented levels of advertising from the Tourism Business Improvement District (TBID) funds, Visit Wichita made a significant impact increasing communications with meeting planners in charge of conventions as well as leisure visitors.

Meeting planner publications were targeted based on readership. The Wichita message carried throughout the year both in print and digital executions.

Leisure messages that encouraged visits to Wichita increased on the web, in social platforms, and print. New initiatives allowed for multiple full-page, color ads in 19 newspapers throughout

Kansas and Oklahoma. Wichita was also featured for the first time in dedicated television and radio commercials, online shows and year-round digital messaging.

**Analysis:** The contract for the current fiscal year was negotiated with City staff and representatives from Visit Wichita. The results are a proposed 2016 contract with performance goals for Visit Wichita outlined in “Exhibit B.”

In an effort to make it possible to bring different conventions and special events to Wichita, the City Council established a “Convention Promotion Contingency” allocation in the annual budget as part of the Tourism and Convention Fund. It is earmarked to fund special activities as deemed appropriate by Visit Wichita. A few of the 2015 recipients of support from this fund included the Mountain Plains Museum Association, Society of American Travel Writers, Midwest Catholic Family Conference, YMCA National Championship Gymnastics, Kansas State High School Activities Association and the Prairie Fire Marathon. Visit Wichita has a \$150,000 contingency funding request for 2016 to support Visit Wichita’s efforts in attracting convention groups and events to the Wichita area.

Visit Wichita also provides services under a separate contract with the City for the TBID. The TBID plan is directed by the TBID Advisory Board. Performance will be measured and reported annually in accordance with the TBID ordinance. The TBID established an additional 2.75 percent fee charged by hotels that have 50 rooms or more to create a substantial fund for additional marketing. The first year for collection of the TBID fees was 2015.

In an effort to improve transparency and accountability, representatives of the City and Visit Wichita have developed disclosure guidelines for activities funded by the City. These guidelines have addressed, among other things, the desire for openness as well as the ability to protect confidential, proprietary and trade secret information.

**Financial Considerations:** Funding for the Convention and Tourism Fund comes from a six percent transient guest tax on hotel and motel rooms in Wichita. The 2016 Adopted Budget includes funding for Visit Wichita’s annual allocation in the amount of \$2,415,772, which is to be paid from the Convention and Tourism Fund. The City agrees to advance Visit Wichita \$201,314.33 each month. This amount does not include the funding for the TBID services which are determined in the TBID agreement.

Visit Wichita may receive up to \$100,000 in matching funds if its private fundraising exceeds its 2016 baseline goal of \$200,000. The sponsorships in Exhibit C may be reimbursed up to \$150,000 of the Convention Promotion Contingency funds, which is also financed from the Convention and Tourism Fund.

**Legal Considerations:** The Law Department has reviewed and approved the contract as to form.

**Recommendations/Actions:** It is recommended that the City Council approve the contract.

**EXHIBIT B**  
Visit Wichita  
2016 Performance Criteria

It is mutually agreed and understood by the City of Wichita and the Wichita Convention and Tourism Bureau, Inc., d/b/a/ Visit Wichita, hereinafter referred to as the "City" and the "Delegate Agency" respectively, that the execution of this contract commits the Delegate Agency to the following goal statements and objectives.

**MISSION STATEMENT**

The mission of the Visit Wichita is to market the Greater Wichita Area as a destination, thereby enhancing the economic development of the city, county, region and state.

**ECONOMIC IMPACT**

Tourism impacts the Wichita economy in several ways including bringing new dollars into the Wichita area, generating tax revenue and creating jobs. The Delegate Agency periodically conducts research to measure economic impact. According to our latest study:

- Domestic travelers directly spent a billion dollars in the Wichita MSA during 2013. \$900 million of this was in Sedgwick County.
- Visitors pay Lodging tax, State Sales tax and County Sales tax - taxes paid by visitors represent taxes that do not have to be paid by Wichita residents. During 2013 domestic traveler spending in Sedgwick County generated \$81.7 million in tax revenue.
- Domestic travel expenditures directly generated 12,400 jobs within the Wichita MSA during 2013. 10,800 of these jobs are in Sedgwick County.

Note: Information is from The Economic Impact of Travel on the Wichita MSA, 2013. A Study Prepared for Visit Wichita by the Research Department of the U.S. Travel Association.

**Tourism Business Improvement District (TBID) Funding**

Incremental increases in objectives 1 & 2 are based on implementation of the TBID plan. If estimated TBID revenue is not achieved objectives 1 & 2 will be adjusted accordingly.

**OBJECTIVE #1: The Delegate Agency will generate, service and/or participate, directly or indirectly, in convention/meeting and travel trade business for Wichita.**

1. Convention Sales Future Bookings (Conventions booked from Jan 1-December 31, 2016)

**2016 Goal: 146,000 room night bookings**

Note: Increase in goal reflects additional group sales efforts utilizing TBID funding

**OBJECTIVE #2: The Delegate Agency will implement a multi-faceted marketing program promoting the Greater Wichita Area as a destination. Utilizing both Transient Guest Tax (TGT) and TBID funding.**

Note: TBID funding has allowed Visit Wichita to move away from Co-op advertising to a 100% dedicated Wichita message. Therefore in some cases impressions may have declined but the impact of the message is greater.

1. Increase reach to regional television viewers

**2016 Goal: 52,000,000 impressions**

\*Co-op ads placed by Kansas Travel & Tourism promoting KS. Cities, including Wichita, paid to have image and/or copy included. State of KS has changed strategy so this exposure is no longer an option. Therefore, co-op ad funding of approximately \$18.6K has been shifted to digital marketing efforts for 2015 and 2016.

\*\*Ads placed by Visit Wichita promoting Wichita only.

2. Increase reach to regional radio listeners

**2016 Goal: 10,000,000 impressions**

\*Billboard strategy from 2011 through early 2015 included 13 static billboards located throughout the state. Strategy shifted in 2013 to eliminating statewide static billboards with contracts expiring in 2014 through Q1 of 2015. Funding of approximately \$20K shifted, therefore, from billboards to digital marketing efforts.

\*\*More geographically targeted, campaign-specific digital billboards were a part of the 2015 TBID summer and holiday campaigns. Additional 2016 strategy included a series of consecutive billboards geographically located near Wichita with the specific messaging to immediately pull visitors off the highway.

Note: Visit Wichita uses traffic count as impressions for billboards.

4. Increase quality national, regional and statewide print advertising impressions

**2016 Goal: 9,000,000 Impressions**

\*Visit Wichita participates in coop advertising with KST&T and other tourism entities in KS. These impressions are not controlled by Visit Wichita and often vary from original marketing plan. Beginning in 2016 we will not track co-op ads in terms of impressions but will participate in those opportunities as appropriate.

Note: Beginning in 2013 strategy shifted by eliminating 1/4 pages ads to full page advertising. Therefore impressions have declined from 2012 strategy but the impact of each ad is greater.

5. Increase online advertising impressions

**2016 Goal: 155,000,000 Impressions**

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council

**SUBJECT:** Request for Resolution of Support for Application for Housing Tax Credits: Chelsea Townhomes Apartments (District IV)

**INITIATED BY:** Housing and Community Services Department

**AGENDA:** New Business

---

**Recommendation:** Adopt the resolution for the application for Housing Tax Credits, subject to all local building and zoning codes, ordinances and any additional design review requirements, with waiver of the 20% market-rate unit requirement.

**Background:** The Housing Tax Credit Program is administered by the Kansas Housing Resources Corporation. Enacted in the Tax Reform Act of 1986, the Housing Tax Credit Program is designed to secure private equity capital for the development of affordable rental housing. The program can provide a substantial portion of the total development cost, which reduces the amount of debt financing in affordable rental housing developments. This allows lower rents and greater affordability. The State receives a tax credit allocation from the Federal government, and requires developers/owners to obtain a resolution of support from the local government when submitting applications for financing through the program.

The City has received a request from Mennonite Housing Rehabilitation Services, Inc., for a City Council resolution of support for an application for 9% Housing Tax Credits in connection with site acquisition and construction of the Chelsea Townhomes apartment complex.

Under the City's adopted Housing Tax Credit (HTC) Policy, developers/owners must present proposed Housing Tax Credit projects to the applicable District Advisory Board (DAB). The policy also requires a review by the City's Development Coordinating Committee (DCC). The Planning Department and the Metropolitan Area Building and Construction Department (MABCD) also review the project for zoning and design appropriateness and provide comments regarding consistency with neighborhood plans, if applicable. Once the project is reviewed by the DAB, DCC, Planning and MABCD, it is forwarded to the City Council for a public hearing, with a staff recommendation regarding the resolution of support for the Housing Tax Credit application.

**Analysis:** The proposed Chelsea Townhomes apartment complex is to be located at the southeast corner of Meridian and 45<sup>th</sup> Street South. According to the application, the proposed project will include 42 apartment units, including 14 two-bedroom apartments, 22 three-bedroom apartments, and six four-bedroom apartments, within nine two-story buildings. The proposed project is the first phase of a planned two-phase development. All apartments will have private entrances, and washer and dryer hook-ups will be provided within each unit. A clubhouse building is to be constructed as well, which will feature a community room, a storm shelter, office space, a computer room, a kitchen facility, a laundry room and restrooms.

Preliminary tax credit rent amounts are estimated to be between \$455 and \$584 for the two-bedroom units, between \$525 and \$675 for the three-bedroom units, and between \$575 and \$750 for the four-bedroom units. One unit is proposed to be offered to a qualifying homeless family, at zero rent. The City's HTC Policy requires a set-aside of 20% of the units for market-rate tenants. As allowed under the policy, the applicant is requesting waiver of this requirement, citing extenuating circumstances related to

market conditions. The developer believes the market conditions support a deviation from the guideline because the additional income that could be generated from non-HTC units at this location would be minimal, at best, and would not support additional debt service. This is based on preliminary market study data obtained by the applicant.

The Planning Department reviewed the proposed project and recommends adoption of the resolution of support for the application for HTCs, stating that the proposed project is substantially consistent with the Future Development Concept Map that is a part of the South Wichita/Haysville Area Plan, which has been adopted as an element of the Wichita-Sedgwick County Comprehensive Plan. Planning staff has expressed the opinion that the proposed project would be a positive addition to the neighborhood, and would also utilize available capacity in the City's existing infrastructure.

MABCD reviewed the project proposal and the preliminary site plan. Fair Housing Act (FHA) provisions, with respect to accessibility, will apply to any building with four or more residential units. The clubhouse building is considered to be a commercial building subject to provisions of the International Building Code (IBC) and requires submittal of plans for review and approval.

MABCD staff noted that there are design options for townhouse-type apartment buildings. If the IBC is utilized, buildings with more than four units are required to have a fire sprinkler system. There is a design option within the IBC that allows for construction of a two-hour fire-resistant/rated fire wall within the six-unit building, which could be used to reduce the number of units to four or fewer on a given side of the building, thus eliminating the sprinkler requirement. Under this option, complete plans are required to be submitted for review/approval as a commercial project. If the International Residential Code (IRC) is utilized, each dwelling unit must be separated from adjacent units by not less than a two-hour fire resistant wall assembly extending through the attic space. The developer and the project architect must make a decision with respect to one of these options, when submitting plans and specifications for plan review. Compliance with the applicable code will be required. Town houses are treated as single-family units, and thus, only civil drawings to address drainage and a site plan for unit layout are required. However, the clubhouse will still be treated as a commercial building.

DAB IV voted (6-1) to recommend adoption of the resolution of support, with waiver of the 20% market rate unit requirement. The DCC also voted to recommend adoption of the resolution of support with the waiver.

Housing and Community Services (HCS) staff believes that the proposed project will provide safe, clean, affordable rental housing, and recommends adoption of a resolution of support by the City Council with waiver of the 20% market rate unit requirement. HCS staff considers the developer's request for the partial waiver to be reasonable, based on review of the market study data, which includes a survey of apartment rent amounts within the surrounding area.

The resolution of support will not constitute final plan or design approval. If the project is awarded Housing Tax Credits, the project developer must comply with all requirements associated with appropriate plan reviews required for issuance of a City building permit. These reviews will include compliance with the City of Wichita's Housing Tax Credit Policy design guidelines. Further, the developer must comply with any additional reviews that may be requested by the City Council member in whose district the proposed project is planned.

Vetting of the developer was conducted by Office of Economic Development staff. There were no outstanding issues noted.

**Financial Considerations:** The total project cost is estimated to be \$7,194,385, including \$5,702,091 in construction costs. The project will be financed with HTCs, a private bank loan, a loan from the Federal Home Loan Bank's Affordable Housing Program, and deferred developer fees. The City will not be involved in the financing of the project.

**Legal Considerations:** The Law Department has reviewed the resolution and approved it as to form.

**Recommendations/Actions:** It is recommended that the City Council adopt the resolution of support for the application for Housing Tax Credits, subject to all local building and zoning codes, ordinances and any additional design review requirements, with waiver of the 20% market-rate unit requirement.

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council

**SUBJECT:** Consent Order Schedule of Compliance (All Districts)

**INITIATED BY:** Department of Public Works & Utilities

**AGENDA:** New Business

---

**Recommendation:** Receive and file the Kansas Department of Health and Environment (KDHE) written approval of the City's corrective actions included in the Consent Order and Amendments to achieve compliance.

**Background:** On July 11, 2013, KDHE and the City of Wichita agreed to Consent Order Case # 13-E-1 BOW, which was issued as a consequence of a faulty gate valve that resulted in an unintended release of partially treated effluent into the Arkansas River from the Plant 2 Wastewater Treatment Plant. Council approved corrective actions identified in the Consent Order Schedule of Compliance. Council also approved an additional schedule of compliance actions included in two subsequent amendments to the Consent Order on January 14, 2014 and February 10, 2015. The Schedule of Compliance included the following actions:

- Implement an Enhanced Water Quality Monitoring Plan
- Complete a Condition Assessment Study on Plants 1 through 5, 60 Lift Stations and perform a risk assessment overview of the wastewater collection system and components of the Water Treatment Plant that poses a threat to the Arkansas River.
- Perform assessment and develop a Schedule of Work on rehabilitating the Plant Two Influent Force Main
- Replace Roof at Plant One Pumping Facility
- Assess and implement emergency back-up power needs at Plant One and Two
- Improve and rehabilitate Plant Two Headworks
- Improve plant headworks, reuse pumping, and solids handling facilities at Northwest Plant Three
- Rehabilitate/Replace Aging Sewer Lift Stations
- Rehabilitate /Replace 66 Inch Force Main between Plant One and Plant Two

Upgrades to these facilities are necessary to meet regulatory requirements and reduce risk that is associated with aging infrastructure.

**Analysis:** KDHE has acknowledged that the City has met, or is in the process of meeting all of the Schedule of Compliance action items. The final compliance action is the work necessary to improve the headworks and solids handling structures at the Northwest Cowskin Plant # 3. Council approved a Design Build contract and work is scheduled to be complete by June 30, 2016. Once this work is complete, KDHE will send the City a closure letter acknowledging the City has met the Schedule of Compliance action items included in the Consent Order and first and second amendments.

**Financial Consideration:** There are no financial implications regarding this item. The projects were approved by the City Council at a cost of \$11,575,000. To date, all projects have come in under budget. These projects were funded by the 2015-2024 Capital Improvement Program which was approved by the City Council in August, 2015.

**Legal Considerations:** The Law Department reviewed and approved the Consent Order and the first and second amendments. The City of Wichita is in Compliance with the Consent Order Case #13-E-1 BOW

**Recommendation/Action:** It is recommended that the City Council receive and file the attached letter from the City to KDHE that establishes an agreement between the two parties regarding the status of the Consent Order Case #13-E-1 BOW, and the process to close the same consent order.

**Attachment:** Letter from the City of Wichita to KDHE, dated December 4, 2015, regarding City of Wichita Consent Order Status and Closure Process, and KDHE written comments.

Notes regarding the Second Amendment SOC include:

- City staff expressed concerns about the completion date for item 2a (grit removal) due to the potential for a long lead time on the Grit King equipment. The City has since met with the consultant and has assurance that delivery of the Grit King is on schedule to meet the completion date of June 30, 2016.
- The City plans to add a centrifuge to enhance the solids handling procedures, which may not be completed by June 30<sup>th</sup>. However the City and KDHE agreed this enhancement is not a part of the Consent Order Second Amendment.

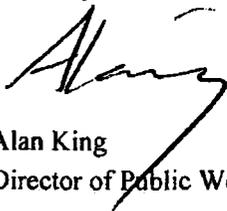

**Consent Order closure**

The KDHE will take action to formally close the Consent Order upon the City's completion of the last item: Plant 3 Headworks & Solids Treatment Improvements, with the completion date being June 30, 2016. Official closure will be established in the form of a letter transmitted from the KDHE to the City of Wichita and no further action will be required thereafter.

In closing, it is necessary for City staff to present this document to Wichita City Council as a Receive and File Action Item prior to moving forward with the design contract for the Plant 3 Headworks & Solids Treatment Improvements project. In order to move forward with the design contract as quickly as possible, City staff will present this letter along with KDHE written comments to the Council on December 15, 2015. Therefore, the City respectfully requests final comments from KDHE be provided in writing to the City by December 10, 2015.

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council  
**SUBJECT:** 2016 State Legislative Agenda  
**INITIATED BY:** City Manager's Office  
**AGENDA:** New Business

---

**Recommendation:** Approve the 2016 State Legislative Agenda.

**Background:** Each year, City departments are asked to submit issues for consideration in the development of the legislative agenda. Those suggestions, along with other issues developed by community partners, are evaluated against Council priorities to compile a prioritized list of issues that comprise the legislative agenda. Once approved, the agenda will be published on the City's website and circulated to the state legislative delegations. In consultation with the City's state lobbyist, Bright & Carpenter with Gencur Svaty, legislative strategies will be developed to secure positive outcomes for the agenda's issues.

**Analysis:** The state legislative agenda contains requests for appropriations and policy actions related to economic development, the property tax lid, sales tax exemptions and distribution, local home rule, annexation, blight, public safety, local elections, transportation, water quality and supply, and various issues of community-wide interest. The state legislative agenda may be expanded as additional issues evolve before the State Legislature. Legislative action on the state agenda would take place prior to the end of the 2016 state fiscal year on June 30, 2017.

**Financial Considerations:** None of the state legislative agenda items require a formal commitment of local matching funds beyond existing authorizations.

**Legal Considerations:** The Law Department has reviewed the legislative agenda. Any necessary contracts and/or memorandums of understanding will be initiated as needed for fulfillment of state funding appropriations and be reviewed and approved as to form by the Law Department.

**Recommendations/Actions:** It is recommended that the City Council approve the 2016 State Legislative Agenda.

**Attachments:** Summation of the 2016 State Legislative Agenda

**CITY OF WICHITA**  
**2016 PROPOSED KANSAS LEGISLATIVE AGENDA**  
**DECEMBER 22, 2015**

<b>ISSUE</b>	<b>CURRENT VERSION</b>	<b>STATUS</b>	<b>2016 ACTION</b>
<b>Economic Development</b>			
Cultural Arts District	HB 2368 would establish cultural arts districts.	Hearing held in House during the 2015 Legislative Session, with no further action	If desired, work with the City, Reviser's office and other interested parties to create suitable version for 2016 legislative action
Arts District	Tax Relief to artist live/work spaces in designated districts defined by local government.	Monitor	Monitor with potential support
Economic Development	Council support for continuation of state economic development programs. Many of these programs will be reviewed by the Tax Committees due to the Special Committee on Tax recommendation.	Monitoring	Monitoring
Export Promotion	Council support for renewed funding	Possible FY2016 contract renewal with Commerce Department Resources	Meet with Sen. Masterson, who initiated Commerce Department conversation
WATC/NCAT	Funding as requested in FY2016 and FY 2017 budget.	Awaiting action during the 2016 Legislative Session	Strongly support continued funding for workforce training 2016 Legislative Session
<b>Emergency Services</b>			
Body camera records	Committee discussion and bill introduced but no action taken	Awaiting potential action during the 2016 Legislative Session	Bill may be back during the 2016 Legislative Session. Continue to monitor
Driving While Suspended Lookback	HB 2040 was introduced during the 2015 Legislative Session and would amend the law and only allow for a 5-year lookback when determining the first, second of subsequent conviction.	The bill was passed by House Judiciary Committee and was stricken from the House Calendar	A similar bill may be introduced during the 2016 Legislative Session
<b>Finance/Tax</b>			
Property Tax Lid	Enacted in final tax revenue bill (HB2109). Changes made to lessen impact on local government.	Renewed efforts expected in 2016 session	Oppose other changes that may be harmful to City of Wichita. Explore expanding

	Potential bill in 2016 to remove some of the exemptions and accelerate implementation date.		<p>exemptions to include rehabilitation and redevelopment of commercial and industrial structures.</p> <p>The League's position:  <i>Local spending and taxing decisions are best left to the local officials representing the citizens that elected them. We oppose any state-imposed limits on the taxing and spending authority of cities and support repeal of the property tax lid.</i></p>
Sales Tax Exemptions	Special Committee on Taxation met over this fall and recommended that the House and Senate Tax Committees to set up a process to sunset all tax credits, sales tax exemptions and other tax policy that creates special tax treatment. The committee is also tasked with creating standards for new exemptions and developing measurable goals for credits and exemptions. Constitutional and value added sales tax exemptions were exempt but governmental entities were not.	To be reviewed by the 2016 Legislature	Monitor and work with other interested parties as the Tax Committees develop their recommendations and process to ensure that there is no double taxation and that there are no roadblocks to fixing an aging infrastructure.
Sales Tax Distribution	Current formula (circa 1985) has created a significant disparity in the amount of SGCO Sales Tax received vs. generated in the cities. While the city of Wichita will generate ~\$77.195 million in sales tax in 2016, it would receive ~\$59.358 million – a difference of +\$17.8 million.	The state has already enacted three exceptions in lieu of the apportionment in three other jurisdictions.	On behalf of Wichitans and other cities, strongly support an exception to fix this disparity.
<b>General Government Operations</b>			
Local Control/Home Rule	Council support of LKM position on home rule authority.		Protect the longstanding constitutional home rule authority of Kansas cities approved by voters in 1960. Local issues and problems should be handled at the level of government closest to the citizens we represent.

Annexation	After much debate in both the House and Senate, annexation related legislation was enacted requiring 2/3 county commission approval to for a city to annex land. The Senate included language to prohibit island annexation which was removed at the end of the session allowing the bill to pass the Legislature and be signed by the Governor.	2015 bill was signed into law by the Governor. More stringent legislation may be introduced in 2016.	The ability of cities to grow is inherent in the economic growth and development of the state. Therefore, we oppose any change that limits the authority of cities' orderly growth through annexation.
Blight	SB 84 was introduced during the 2015 Legislative Session and would amend the definition of blight.	Bill was passed by the Senate Commerce Committee but was stricken from legislative calendar.	A similar bill may be introduced during the 2016 Legislative Session. Support legislation to help us balance the need to address blight with appropriate property rights.
Conceal and Carry	Make change to the Personal and Family Protection act to allow security passes for public buildings with robust system of security measures including background check, fingerprinting, etc.	City Attorney's office has been working with Rep. Brunk on language.	Find new sponsor and advocate for this issue during session
Elections	Legislation was enacted in 2015 moving local elections to the fall of odd years from the spring. There were a few points in the bill that may need clarification pertaining to upcoming elections.	Signed into law. Current debate on whether provisions of the bill need to be altered.	Potential for legislation in 2016 to re-open the election bill which could allow for further pursuit of election changes. Monitor and work with other interested parties.
Insurance Proceeds	The Kansas League of Municipalities is working on bill to amend KSA 40-3901 to add seismic activity to the list of perils in which a city can retain a percentage of the insurance settlement if the insured walks away from the property. The League is also asking to extend the window to 45 days	Kansas League of Municipalities has a bill draft	Work with League on issue during 2016 Legislative Session
Public Lobbying	Legislation was enacted in 2015 that created additional reporting and disclosure requirements of public funds used by a public entity for public awareness/advocacy.	Fall interim held to discuss further modifications to public lobbying bill following legislation signed into law by Governor	Work to ensure no further onerous changes will be made to last year's public lobbying disclosure, reporting and filing bill
Election Signage	2015 Sign Legislation		Recent legislation violates the June 18, 2015 Supreme Court ruling in the <u>Reed v. Gilbert AZ</u> case. Work with the Kansas

			League of Municipalities on this issue.
<b>Public Works/Utilities</b>			
Water: 50-Year State Plan	Council statement of support for Equus Beds recognition in state 50-year plan	Presentation before House Ag Committee in 2015	Continued discussion during the 2016 Legislative Session
Water: Regulatory Remedies	PW&U letter to state Ag Dept and Water Office	Discussion with state agency	Continued discussion
Water: Water Plan	Council support for reevaluation of governance, funding of state Water Plan. Water Authority appointment for Alan King (Aug 2015).	Discussion with state agency	Continued discussion
Groundwater Water Rights	Legislation was introduced last session concerning groundwater water right that would amend the Water Appropriation Act. The bill requires that the person operating the water right is doing so at an approved point of diversion; for an approved use; within the maximum flow rate; and, is within the approved quantity of water.	Bill never received a hearing last session.	Continue to monitor HB 2245 and express opposition if the bill would appear to gain traction
Offsite Best Management Practices (BMP) program	The City's proposed offsite BMP program would allow developers and owners of property to elect to pay an annual fee to support offsite, downstream protections against runoff pollution, as an alternative to meeting code requirements for onsite runoff mitigation on each specific property when it is developed.	Under development	Begin the education process with local stakeholders and elected officials about the issue and the need for any changes
<b>Transportation</b>			
Passenger Rail	Council support of state discussion and funding for passenger rail in the state.	Planning stage	Monitor and work with other interested parties to support passenger rail in Wichita
Transportation	Council support for full execution of T-WORKS; oppose redirection of KDOT funding	KDOT funding redirected to balance FY2015 state budget and FY 2016 state budget	Monitoring and work with interest groups

**SUBJECT:** Community Events – Wichita Symphony Orchestra’s Young People’s Concerts  
Bus Parking (District I)

**INITIATED BY:** Division of Arts & Cultural Services

**AGENDA:** Consent

---

**Recommendation:** Approve the request for temporary street closures.

**Background:** In accordance with the Community Events procedure, the event promoter Anne Marie Brown, Wichita Symphony Orchestra, is coordinating the Wichita Symphony Orchestra’s Young People’s Concerts bus parking with City of Wichita staff, subject to final approval by the City Council.

**Analysis:** The following street closure request has been submitted:

**Wichita Symphony Orchestra’s Young People’s Concerts Bus Parking, January 26-28, 2016 9:00 am – 12:00 pm**

- Century II Drive, Main Street to Douglas Avenue

The promoter will arrange to remove the barricades as necessary to allow emergency vehicle access during the entire designated time period. The barricades will be removed immediately upon completion of the event.

**Legal Consideration:** This action complies with the ordinance on street closures for community events.

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council

**SUBJECT:** Partial Acquisition of Land at 4726 E. Vesta for the 17<sup>th</sup> Street and Oliver Intersection Project. (District I)

**INITIATED BY:** Office of Property Management

**AGENDA:** Consent

---

**Recommendation:** Approve the acquisition.

**Background:** On August 18, 2015, the City Council approved the 17<sup>th</sup> St. and Oliver Intersection Project. Turn lanes will be added, traffic signals will be upgraded, the storm water drainage system will be updated, and new sidewalks will be installed. The improvements to the 17<sup>th</sup> St. and Oliver Intersection Project will align with the improvements to Oliver and the 21<sup>st</sup> St. and Oliver Intersection Project. The property at 4726 E. Vesta is improved with a single family residence; those improvements are situated in a manner that they face Vesta. The road project requires a five foot wide strip of land along the subject property's east property line. The residence is not impacted by the project; however, the landscaping, trees, and the wooden privacy fence along Oliver are impacted. Inside the wood privacy fence is a second fencing structure used as a dog run.

**Analysis:** The proposed 677 square foot taking was valued at \$675, or \$1 per square foot. The owner agreed to convey the land for \$1.10 per square-foot, or an additional \$75. An estimate of \$3,581 was received to relocate both the dog run and the wood privacy fence. The owner also agreed to accept \$1,250 as damages to the trees and landscaping for a total of \$5,581.

**Financial Considerations:** The funding source for the project is general obligation bonds. A budget of \$5,756 is requested. This amount is comprised of \$5,581 is for acquisition and \$175 for title work and other administrative fees.

**Legal Considerations:** The Law Department has approved the agreement as to form.

**Recommendation/Action:** It is recommended that the City Council approve the acquisition, authorize the budget request, and authorize all necessary signatures.

**Attachments:** Real estate purchase agreement, tract map and aerial map.

Funding is available within the existing budget, approved by the City Council on September 1, 2015, and is funded by special assessments.

**Legal Considerations:** Supplemental Design Agreement No. 1 has been reviewed and approved as to form by the Law Department.

**Recommendation/Action:** It is recommended that the City Council approve Supplemental Design Agreement No. 1 and authorize the necessary signatures.

**SUBJECT:** Amending Resolution for Sanitary Sewer Improvements to Moscelyn Meadows Addition (District IV)

**INITIATED BY:** Department of Public Works & Utilities

**AGENDA:** Consent

---

**Recommendation:** Adopt the amending resolution.

**Financial Considerations:** The project budget remains \$20,000, as previously approved, and is funded by special assessments.

**Legal Considerations:** The Law Department has reviewed and approved the amending resolution as to form.

**Recommendation/Action:** It is recommended that the City Council adopt the amending resolution and authorize the necessary signatures.

**TO:** Mayor and City Council  
**SUBJECT:** Waiver of MABCD Special Assessment Fees (District I)  
**INITIATED BY:** City Manager's Office  
**AGENDA:** Consent

---

**Recommendation:** Approve waiver of the fees.

**Background:** On November 4, 2014, the City Council adopted Ordinance 49-885 allowing for the Metropolitan Area Building and Construction (MABCD) fees to be waived under certain qualifying circumstances. Habitat for Humanity has submitted the proper paperwork requesting that the MABCD special assessment fees be waived on the vacant lot located at 1148 N. Poplar. All presale conditions of the Ordinance have been met by Habitat for Humanity.

**Analysis:** Habitat for Humanity has secured the vacant lot located at 1148 N. Poplar. Habitat has applied to have \$246.62 in lot clean-up special assessment fees waived. There are no additional pending MABCD special assessment fees for this property.

**Financial Considerations:** The waiver will result in a loss of special assessment revenue in the amount of \$246.62. Redevelopment of the property by Habitat for Humanity will result in additional property taxes for the City of Wichita. Habitat plans to build a single-family home on this lot in July 2016.

**Legal Considerations:** The Law Department has reviewed and approved the fee waiver as to form.

**Recommendations/Actions:** It is recommended that the City Council waive the \$246.62 in MABCD special assessment fees.

**Attachments:** Special assessment waiver packet.

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council  
**SUBJECT:** Year-End Budget Adjustments (All Districts)  
**INITIATED BY:** Department of Public Works & Utilities  
**AGENDA:** Consent

---

**Recommendation:** Approve the year-end budget adjustments.

**Background:** The 2015 budgets will soon have final expenditures posted, and budget adjustments are necessary to close out the fiscal year. Administrative Regulations require City Council approval for all budget adjustments that exceed \$25,000.

**Analysis:** To close out fiscal year 2015, a handful of line-items are projected to be over budget. These budget adjustments can be offset by lower than budgeted expenditures in other areas. Each of the potential expenditure overages are noted at the maximum potential level, to provide the authority to process year-end adjustments and to avoid delays in vendor payments. The actual necessary adjustments are expected to be smaller than listed, and all funds will remain under the state-certified budget limits established for 2015.

- **General Fund:** There will be overages in the contractual and commodities line items of the group that manages City facility maintenance. These overages are driven by needed repairs being greater than budgeted for maintenance at the Wichita Art Museum, Century II, Park facilities, Fire stations, and Police facilities. The total of these overages is \$160,000. Savings of about \$350,000 are anticipated from under-spending in the personnel budget due to a soft hiring freeze implemented by the Department, and this under-spending can be used to cover the line item overages without impacting the bottom line.

The Street Maintenance Division will experience a budget failure in personnel that is related to the increased need for snow removal labor. This budget failure is projected to be approximately \$230,000.

Signs and Signals is projecting a failure up to \$80,000 in contractals, related to a traffic accident that required the replacement of a pole, detour signage related to load limit reduction on the John Mack Bridge, and unanticipated Airport signage expenses.

The Environmental Health Division will exceed its personnel budget by as much as \$150,000. Due to being fully staffed for most of the year, this division was unable to meet planned saving targets within the personnel budget. Under-spending in other line items can be used to cover overages without impacting the bottom line.

Snow and Ice Removal expenditures are over budget due to higher than average snow events, including a snow and ice event that extended over Thanksgiving into the following weekend and another event the weekend following Christmas. Both events resulted in substantial personnel and

overtime pay. On December 1, City Council authorized \$300,000 to be moved from the contingency budget to accommodate higher than average Snow and Ice Removal expenditures. The recommended action would authorize the remaining non-departmental contingency budget of \$450,000 cover any and all overages in the Snow and Ice Removal budget through the end of 2015.

In total, an amount up to \$620,000 would be shifted within any of the Public Works & Utilities General Fund division budgets to cover line item overages in any of the department's General Fund divisions other than Snow and Ice Removal. Up to \$450,000 would be transferred from the non-departmental snow and ice Removal contingency to cover any and all overages in the Public Works & Utilities Snow and Ice Removal budget.

- **Water Fund:** Commercial meters have been replaced and repaired at much higher rates, which provides a more accurate meter network to generate additional water revenue without impacting rates. This is being done in conjunction with a five-year program to replace all residential meters. The additional work has increased costs for materials and for contracting out service line work. Utility Operations has also experienced higher than anticipated contractual expenditures due to an emphasis on bad debt collection, which has resulted in increased processing charges. Additionally, web and phone payments are up approximately 5%, which also carries an additional expenditure for processing fees. An amount up to \$950,000 would be transferred from under-spent line items in divisions within the Water Fund to cover any line item overages.
- **Stormwater Fund:** The Stormwater Utility has had two large, emergency repairs that have contributed to the depletion of the \$600,000 Hot Spot budget and the contingency of \$100,000. The failure of a stormwater pipe near the 1<sup>st</sup> Street Bridge in downtown Wichita required an emergency repair that has totaled approximately \$250,000. A second emergency repair was needed near Sewer Treatment Plant 1 on a stormwater line that passed through a sewer line, causing the potential for a permit violation. This emergency repair totaled approximately \$600,000. These unforeseen repairs may require the use of available certified budget authority to meet all budget obligations for 2015 by an amount of \$600,000. The recommended action would increase the budget for contractals by \$600,000 and would authorize any other line-item adjustments to be made in order to ensure that the Stormwater Fund does not report any line-item overages at year-end.

**Financial Considerations:** The budget adjustments will provide necessary expenditure authority to ensure compliance with City policies at year-end. All funds under the Department will come in under the state-certified budget levels.

**Legal Considerations:** Budget adjustments over \$25,000 require approval by the City Council.

**Recommendations/Actions:** It is recommended that the City Council approve the year-end budget adjustments.

**Case No.: ZON2015-00045** - Reichenberger Revocable Family Trust and Sandra Reichenberger (Owners), PlanScape Partners c/o Ronald Discus (Agent/Applicant) request a City zone change from SF-5 Single-family Residential to LC Limited Commercial on property described :

Lot 1, Mary Ellen Addition to Wichita, Sedgwick County, Kansas.

AND

The North 180 feet of the West 197 feet of the South Half of the Northwest Quarter of Section 27, Township 27 South, Range 1 West of the Sixth Principal Meridian, Sedgwick County, Kansas; EXCEPT the North 30 feet and the West 40 feet thereof for road purposes.

AND

The South 150 feet of the North 330 feet of the West 197 feet of the South half of the Northwest Quarter EXCEPT the West 40 feet for road, Section 27, Township 27 South, Range 1 West of the Sixth Principal Meridian, Sedgwick County, Kansas.

**BACKGROUND:** The applicant requests a rezone from SF-5 Single-family Residential (“SF-5”) to LC Limited Commercial (“LC”) zoning on three lots, one platted (501 S. Summitlawn Dr.) and two unplatted (500 and 526 S. Ridge Rd) lots equaling approximately 1.10 acres, located on the east side of Ridge Road and the south side of Taft Avenue. The parcels are currently developed with single-family residences.

The current neighborhood character is a mix of GC General Commercial (“GC”) and LC zoned shopping, restaurant and entertainment uses along Kellogg Dr., Mid-Continent Dr., Ridge Rd. and Taft Ave. The only remaining residential properties along this corridor are these two SF-5 zoned homes on the east side of Ridge Rd. and the one SF-5 zoned home on the south side of Taft Ave. The proposed zone change, from SF-5 to LC would require conformance to all property development standards in the Unified Zoning Code.

To the north of the application area (across Taft Ave.), the property is zoned LC and is developed with a collection of restaurants. South of the application area the property is zoned GC and still developed with a single-family residence. East of the subject site is property zoned GC (DP-151 The Dugan Center) and is developed with regional retail uses. West of the application area (across S. Ridge Rd.) is property zoned LC and developed with a theater and restaurants. US-54 (Kellogg) is located approximately 1,000 feet south of the application area, which is accessible from Mid-Continent Dr., but not S. Ridge Rd., which turns into a cul-de-sac just south of the application area.

**CASE HISTORY:** Two properties within this application are currently unplatted (500 and 526 S. Ridge Rd.) and 501 S. Summitlawn Dr. is platted as Lot 1, Mary Ellen Addition, recorded October 11, 1967.

**ADJACENT ZONING AND LAND USE:**

NORTH:	LC	Restaurants
SOUTH:	GC	Single-family Residence
EAST:	GC	Shopping Center
WEST:	LC	Movie Theater & Restaurants

**PUBLIC SERVICES:** The properties are located along Ridge Rd. and Taft Ave., northeast of Mid-Continent Dr. and Kellogg. The 2006 Average Daily Traffic Map showed 27,701 ADTs (average daily trips) for section of Mid-Continent Dr., west of the application area, and 10,823 ADTs for Taft, just north of the application area. The application area currently has two points of access onto Ridge Rd. and one onto Taft Ave. City water and sewer are available at the application area.

**CONFORMANCE TO PLANS/POLICIES:** The Land Use Guide of the Comprehensive Plan identifies the application area, along with the entire surrounding area, as “Regional Commercial.” The application area is consistent with the “Commercial Locational Guidelines” of the Wichita-Sedgwick County Comprehensive Plan. Commercial sites should be located adjacent to arterial streets or major thoroughfares that provide needed ingress and egress in order to avoid traffic congestion, with the location of major commercial uses being coordinated with mass transit routes, high-density residential, employment and other intensive uses. Commercial development should have required site design features that limit noise, lighting and other aspects of commercial activity that may adversely impact surrounding residential land uses and commercial uses should locate in compact clusters or nodes versus extended strip developments. Commercially-generated traffic should not feed directly onto local residential streets and commercial uses that are not located in planned centers or nodes (including large free-standing buildings, auto-related and non-retail uses) should be guided to other appropriate areas such as: the CBD fringe; segments of Kellogg; established areas of similar development; and, areas where traffic patterns, surrounding land uses and utilities can support such development.

**RECOMMENDATION:** This zone change request is in conformance with the Land Use Guide of the Comprehensive Plan and “Commercial Locational Guidelines.” A zone change to LC and the subsequent redevelopment will require the application area to be in compliance with the landscape ordinance; and to screen and deflect lighting from any residential neighbors. To be redeveloped, the applicant will be required to plat the two unplatted properties within the application area. Planning staff anticipates that platting will include complete dedication of access control with one point of access on Ridge Rd., and required cross-lot access agreements with all non-residentially zoned neighboring lots.

For the application proposing a rezone from SF-5 Single-Family Residential (“SF-5”) to LC Limited Commercial (“LC”) for 500 & 526 S. Ridge Rd. and 501 S. Summittlawn Dr., considering information available prior to the public hearings, planning staff recommends APPROVAL of the rezone request, subject to platting within one year.

This recommendation is based on the following findings:

1. The zoning, uses and character of the neighborhood: The surrounding area is a mixture of GC and LC zoning. The surrounding land uses are a mixture of restaurants, shopping centers, a theater, a single-family home, and an elevated highway. Landscape and screening requirements should help mitigate any negative impacts from the application area any residential neighbors.
2. The suitability of the subject property for the uses to which it has been restricted: The Land Use Guide of the Comprehensive Plan identifies the entire surrounding area as “Regional Commercial.” With a large CUP commercial development to immediate east, and past street improvements along Ridge and Taft, the entire surrounding area is currently being redeveloped for commercial uses.
3. Extent to which removal of the restrictions will detrimentally affect nearby property: Approval of LC zoning on this property will increase traffic and the intensity of land uses in the immediate area. Designation of the entire surrounding area as “Regional Commercial” in the Land Use Guide of the Comprehensive Plan, and past street improvements on Ridge and Taft, have taken into consideration the redevelopment of the surrounding area for commercial uses.
4. Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies: The requested zoning change is in conformance with the Comprehensive Plan “Wichita Land Use Guide,” and it is in conformance with the commercial locational guidelines of the plan.
5. Impact of the proposed development on community facilities: A zone change at the application area to LC will increase traffic along Ridge and Taft, the designation of the entire surrounding area as “Regional Commercial” in the Land Use Guide of the Comprehensive Plan, and past street improvements, have planned and accounted for increased traffic in this area.

On Monday, December 7, 2015, the District I Advisory Board considered a request for a GC General Commercial (“GC”) zoning on a 0.22-acre site, currently zoned TF-3 Two-family Residential (“TF-3”) subject to the proposed Protective Overlay: The following uses shall not be permitted: hotel or motel; pawn shop; payday loan; rodeo; riding academy or stable; tattooing or body piercing facility; vehicle and equipment sales; asphalt or concrete plant; vehicle storage yard; adult entertainment establishment; massage therapist/parlor; correctional placement residence; recycling collection station; reverse vending machine; car wash; convenience store; kennel; night club; restaurant with drive-in or drive-thru facilities; service station; tavern and drinking establishment.

**EXCERPT MINUTES OF THE DECEMBER 3, 2015 WICHITA-SEDGWICK COUNTY METROPOLITAN AREA PLANNING COMMISSION HEARING**

**Case No.: ZON2015-00047** - Janice Thacker (Owner/Applicants) requests a City zone change request from T- 3 Two-family Residential to GC General Commercial on property described as:

Lots 4, 6 and 8, on Alice, now Greet Street, Fairmount Park Addition to Wichita, Sedgwick County, Kansas.

**BACKGROUND:** The applicant is requesting GC General Commercial (“GC”) zoning on a 0.22-acre site, currently zoned TF-3 Two-family Residential (“TF-3”). The proposed use is a parking area, commercial, for the art studio and an open air retail market with outside display proposed to be developed just west of the site, across Green Street. The site is located at the southeast corner of East 13<sup>th</sup> Street North and North Green Street, just two blocks east of North Grove Avenue. The subject site currently is undeveloped.

Property to the north of the subject site (across 13<sup>th</sup> Street) is zoned GC and is developed with outdoor storage area. Property to the south of the subject site is zoned TF-3 and is developed with a single-family residence. To the west of the subject site (across Green Street) the property is zoned GC and is currently developed with a vacant single-family residence. Property to the east of the subject site is zoned TF-3 and is vacant, with a duplex further to the east, fronting Estelle Avenue.

**CASE HISTORY:** The property is platted as Lots 4, 6 and 8, Green Street, Fairmount Park Addition, which was recorded August 12, 1909.

**ADJACENT ZONING AND LAND USE:**

NORTH:	GC	Outdoor Storage
SOUTH:	TF-3	Single-family Residence
EAST:	TF-3	Vacant Land, Duplex
WEST:	GC	Vacant Single-Family Residence

**PUBLIC SERVICES:** The subject property has frontage along East 13<sup>th</sup> Street North (north side of property), a four-lane, paved, arterial road with approximately 35,000 Average Daily Trips (ADT’s) near this location. Along the west side of the property runs North Green Street, a two-lane, paved, collector without traffic counts. Public water and sewer service are currently available to the subject property.

**CONFORMANCE TO PLANS/POLICIES:** The Land Use Guide of the Comprehensive Plan identifies this area as “Urban Residential.” This is the only corner of Green Street that is not

identified as “Local Commercial.” The “Urban Residential” category encompasses areas that reflect the full diversity of residential development densities and types typically found in a large urban municipality. The range of housing types found includes single detached homes, semi-detached homes, zero lot line units, patio homes, duplexes, townhouses, apartments and multi-family units, condominiums, mobile home parks, and special residential accommodations for the elderly (assisted living, congregate care and nursing homes). Elementary and middle school facilities, churches, playgrounds, parks and other similar residential-serving uses may also be found in this category.”

**RECOMMENDATION:** While this proposed zone change does not exactly conform to the existing Land Use Guide of the Comprehensive Plan, this request would be in conformance at the other three corners of the intersection due to them being classified as Local Commercial. This proposed zone change is proposed to help serve the property to the east of the subject site (across Green Street) which was granted a zone change from TF-3 to GC by the MAPC on December 2, 2010 (ZON2010-00042). Thus, based upon the information available prior to the public hearings and past zone change requests in the area, planning staff recommends that the request be **APPROVED**, subject to the proposed Protective Overlay:

- A. The following uses shall not be permitted: hotel or motel; pawn shop; payday loan; rodeo; riding academy or stable; tattooing or body piercing facility; vehicle and equipment sales; asphalt or concrete plant; vehicle storage yard; adult entertainment establishment; massage therapist/parlor; correctional placement residence; recycling collection station; reverse vending machine; car wash; convenience store; kennel; night club; restaurant with drive-in or drive-thru facilities; service station; tavern and drinking establishment.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** Property to the north of the subject site (across 13<sup>th</sup> Street) is zoned GC and is developed with outdoor storage area. Property to the south of the subject site is zoned TF-3 and is developed with a single-family residence. To the west of the subject site (across Green Street) the property is zoned GC and is currently developed with a vacant single-family residence. Property to the east of the subject site is zoned TF-3 and is vacant, with a duplex further to the east, fronting Estelle Avenue.
2. **The suitability of the subject property for the uses to which it has been restricted:** The site could be developed with a single-family residential or duplex use under the current zoning.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** Rezoning and commercial development could have negative effects on the single-family residences south and east of the application area. Existing codes would require compatibility setbacks, screening, landscaping, limit noise, and prohibit certain uses within 200 feet of residences.
4. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The Land Use Guide of the Comprehensive Plan identifies this area as “Urban Residential.” This is the only corner of Green Street that is not identified as

“Local Commercial.” The “Urban Residential” category encompasses areas that reflect the full diversity of residential development densities and types typically found in a large urban municipality. The range of housing types found includes single detached homes, semi-detached homes, zero lot line units, patio homes, duplexes, townhouses, apartments and multi-family units, condominiums, mobile home parks, and special residential accommodations for the elderly (assisted living, congregate care and nursing homes). Elementary and middle school facilities, churches, playgrounds, parks and other similar residential-serving uses may also be found in this category.”

5. **Impact of the proposed development on community facilities:** Traffic on the existing residential street could increase as a result of the proposed development. The site currently has a curb cut for access to North Green Street, a classified local street.

**MOTION:** To approve subject to staff recommendation.

**SUBJECT:** ZON2015-00048 – Zone Change from TF-3 Two-Family Residential to GO General Office on Property Generally Located South of East 9<sup>th</sup> Street North, Along the East Side of North Hillside Avenue (918 North Hillside Avenue) (District I)

**INITIATED BY:** Metropolitan Area Planning Department

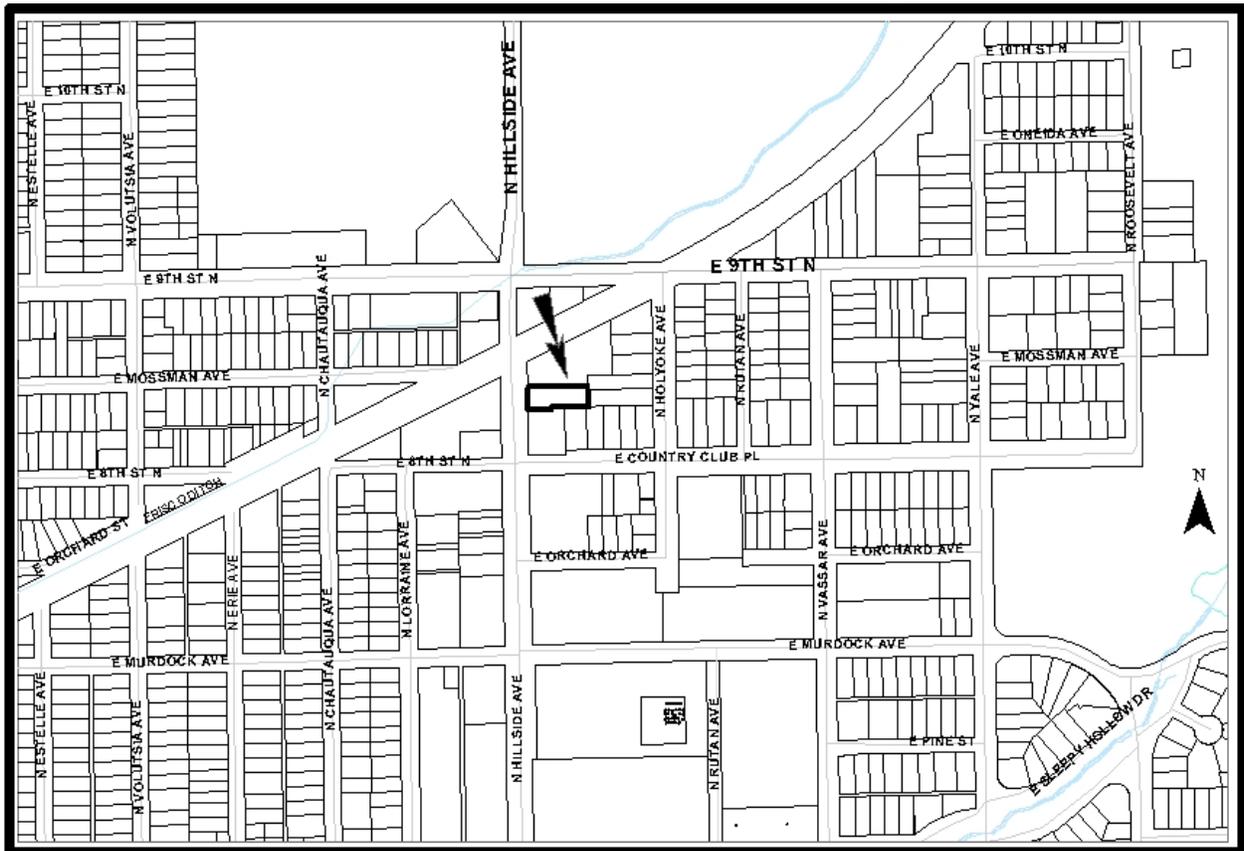

**AGENDA:** Planning (Consent)

---

**MAPC Recommendation:** The MAPC recommended approval of the request (12-0).

**DAB Recommendation:** District Advisory Board I recommended approval of the request 8-1.

**MAPD Staff Recommendation:** Metropolitan Area Planning Department staff recommends approval of the request.

**Background:** The applicant requests a zone change from TF-3 Two-family Residential (“TF-3”) to GO General Office (“GO”) on a 0.97 acre site located south of East 9<sup>th</sup> Street North, along the east side of North Hillside Avenue (918 N. Hillside Ave.) The vacant site is 208 feet deep and 80 feet wide. The applicant indicates a desire to have the property rezoned to the same zoning of the properties to the north and south of the subject site to make the property more marketable.

GO zoning would allow the following land uses not permitted in the current TF-3 zoning: multi-family residential (at 75 units per acre), assisted living, group residence, cemetery, community assembly, correctional placement residence, day care, nursing facility, university or college, automated teller machine, bed and breakfast inn, broadcast/recording studio, funeral home, hotel or motel, recreational marine facility, medical service, general office and commercial parking area. Code standards would require a landscape plan to include parking lot screening, and would limit light pole height to 15 feet with lights shielded downward, preventing light trespass off the site. Maximum building height in the GO district is 60 feet.

Property north of the subject site is zoned GO and is currently vacant. South of the site, the property is also zoned GO and TF-3 and is developed with a medical office (GO zoned property) and single-family residence (TF-3 zoned property.) East of the subject site, the property is zoned TF-3 and is developed with a single-family residence. West of the subject site (across N. Hillside Ave.) the property is zoned GC General Commercial (“GC”) and is developed as a mortuary/funeral home.

**Analysis:** On December 3, 2015, The Metropolitan Area Planning Commission (MAPC) recommend approval of (12-0) the application.

On December 7, 2015, District Advisory Board (DAB) I reviewed the application and recommend approval 8-1.

No protest petitions have been received. The request can be approved with a simple majority vote.

**Financial Considerations:** Approval of this request will not create any financial obligations for the City.

**Legal Considerations:** The Law Department has reviewed and approved the ordinance as to form.

**Recommendation/Actions:** It is recommended that the City Council adopt the findings of the MAPC and approve the Zone Change **and place the ordinance on first reading**, (simple majority vote).

**EXCERPT MINUTES OF THE DECEMBER 3, 2015 WICHITA-SEDGWICK COUNTY  
METROPOLITAN AREA PLANNING COMMISSION HEARING**

**Case No.: ZON2015-00048** - Merle Meeds, Charles Meeds and LaDonna Moss (Owner(s)/Applicants(s)) request a City zone change from TF-3 Two-family Residential to GO General Office on property described as:

The South half of lot 3, all of lots 4 and 5 and the ½ vacated alley on the South and all of vacated alley adjacent to lots 6 thru 10 EXCEPT the West 35 feet for street, Boyce & Taylor’s Addition to Wichita, Sedgwick County, Kansas.

**BACKGROUND:** The applicant requests a zone change from TF-3 Two-family Residential (“TF-3”) to GO General Office (“GO”) on a 0.97 acre site located south of East 9<sup>th</sup> Street North, along the east side of North Hillside Avenue (918 N. Hillside Ave.) The vacant site is 208 feet deep and 80 feet wide. The applicant indicates a desire to have the property rezoned to the same zoning of the properties to the north and south of the subject site to make the property more marketable.

GO zoning would allow the following land uses not permitted in the current TF-3 zoning: multi-family residential (at 75 units per acre), assisted living, group residence, cemetery, community assembly, correctional placement residence, day care, nursing facility, university or college, automated teller machine, bed and breakfast inn, broadcast/recording studio, funeral home, hotel or motel, recreational marine facility, medical service, general office and commercial parking area. Code standards would require a landscape plan to include parking lot screening, and would limit light pole height to 15 feet with lights shielded downward, preventing light trespass off the site. Maximum building height in the GO district is 60 feet.

Property north of the subject site is zoned GO and is currently vacant. South of the site, the property is also zoned GO and TF-3 and is developed with a medical office (GO zoned property) and single-family residence (TF-3 zoned property.) East of the subject site, the property is zoned TF-3 and is developed with a single-family residence. West of the subject site (across N. Hillside Ave.) the property is zoned GC General Commercial (“GC”) and is developed as a mortuary/funeral home.

**CASE HISTORY:** The property was platted as the South ½ of Lot 3, all of Lots 4 and 5 and ½ the Vacated Alley on the South and Vacated Alley adjacent to Lots 6, 7, 8, 9 and 10, Except the West 35 Feet for Street, Boyce and Taylors’s Addition on October 7, 1911.

**ADJACENT ZONING AND LAND USE:**

NORTH:	GO	Vacant Land
SOUTH:	GO and TF-3	Medical Office and Single-family Residence
EAST:	TF-3	Single-family Residence
WEST:	GC	Mortuary/Funeral Home

**PUBLIC SERVICES:** The site has access to North Hillside Avenue, a paved, four-lane arterial with a 94-foot right-of-way. Public water and sewer service are available at the subject property.

**CONFORMANCE TO PLANS/POLICIES:** The Land Use Guide of the Comprehensive Plan identifies this area as “Local Commercial.” This category encompasses areas that contain

concentrations of predominately commercial, office and personal service uses that do not have a significant regional market draw. The range of uses includes medical or insurance offices, auto repair and service stations, grocery stores, florist shops, restaurants and personal service facilities. On a limited presence basis, these areas may also include mini-storage warehousing and small scale, light manufacturing uses.

**RECOMMENDATION:** Staff finds that based upon information available prior to the public hearings, planning staff recommends that the request be **APPROVED**.

The staff's recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** Property north of the subject site is zoned GO and is currently vacant. South of the site, the property is also zoned GO and TF-3 and is developed with a medical office (GO zoned property) and single-family residence (TF-3 zoned property.) East of the subject site, the property is zoned TF-3 and is developed with a single-family residence. West of the subject site (across N. Hillside Ave.) the property is zoned GC General Commercial ("GC") and is developed as a mortuary/funeral home.
2. **The suitability of the subject property for the uses to which it has been restricted:** The site could be developed with a single-family residential or duplex use under the current zoning.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** GO zoning on this site could permit uses which may be incompatible with the residential neighborhood to the east. The limited size (0.97 acres) and limited depth of the site (208 feet) would likely prevent most objectionable uses from being developed on this site. Minimum code requirements regarding lighting, screening and landscaping should minimize potential impacts on nearby residences.
4. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The Land Use Guide of the Comprehensive Plan identifies this area as "Local Commercial." This category encompasses areas that contain concentrations of predominately commercial, office and personal service uses that do not have a significant regional market draw. The range of uses includes medical or insurance offices, auto repair and service stations, grocery stores, florist shops, restaurants and personal service facilities. On a limited presence basis, these areas may also include mini-storage warehousing and small scale, light manufacturing uses.
5. **Impact of the proposed development on community facilities:** Traffic on the existing arterial could increase as a result of any proposed development. The site currently has a curb cut for access to North Hillside Avenue, a classified arterial road.

DERRICK SLOCUM, Planning Staff presented the Staff Report.

**MOTION:** To approve subject to staff recommendation.

MCKAY moved, JOHNSON seconded the motion, and it carried (12-0).

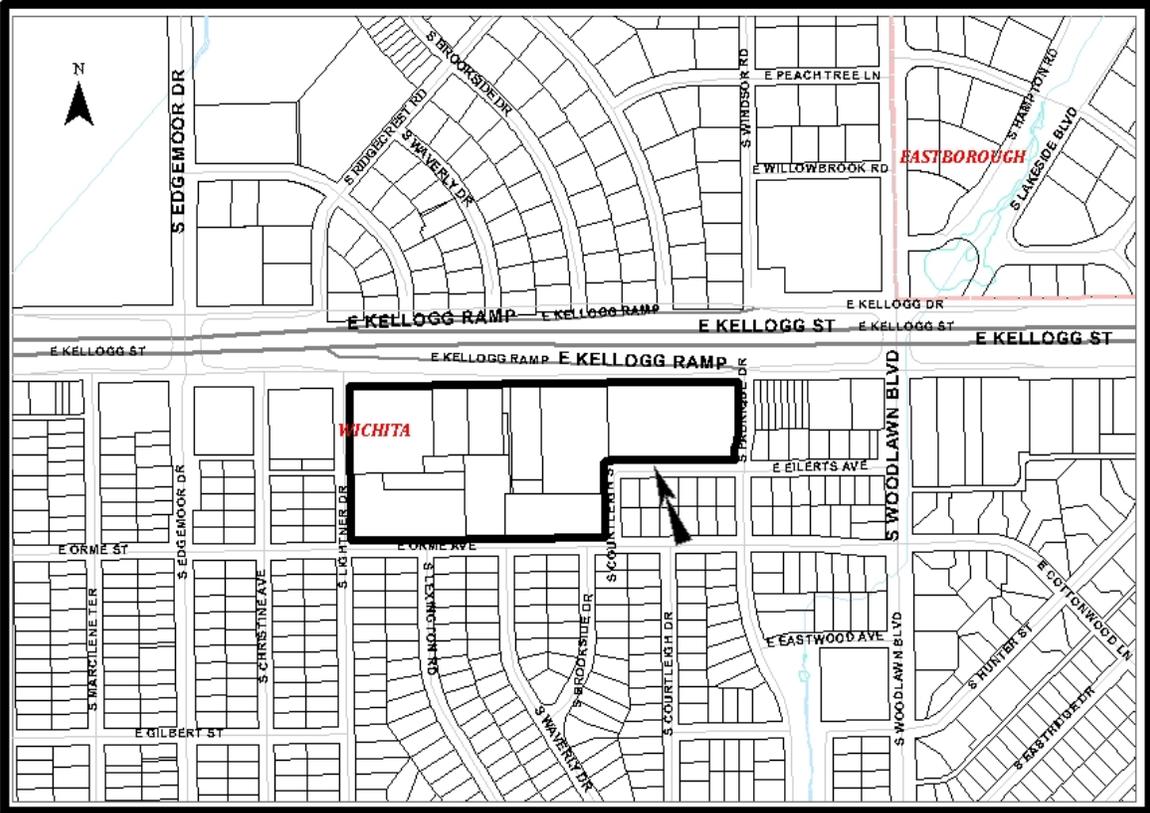

City of Wichita  
City Council Meeting  
January 5, 2016

**TO:** Mayor and City Council  
**SUBJECT:** ZON2015-00049 and CUP2015-00043 – Zone Change from LC Limited Commercial to GC General Commercial and Amendments to DP-183 on Property Generally Located South of Kellogg and West of Woodlawn (6215 East Kellogg) (District III)  
**INITIATED BY:** Metropolitan Area Planning Department  
**AGENDA:** Planning (Consent)

**MAPC Recommendation:** The MAPC recommended approval of the request (12-0).

**DAB Recommendation:** District Advisory Board III recommended approval of the request (7-0).

**MAPD Staff Recommendation:** Metropolitan Area Planning Department staff recommended approval of the request.

**Background:** The applicants request a zone change from LC Limited Commercial (LC) to GC General Commercial (GC) zoning and an amendment to DP-183, the Davis Moore Community Unit Plan (CUP). The CUP Amendment would add the following GC uses: Construction Sales and Service, Ancillary Fuel Storage, Outdoor Storage and Wholesale or Business Services. The amendment would also prohibit the following uses: Adult Entertainment, Sexually Oriented Business, Group Residence, Correctional Placement Residence, Asphalt/concrete Plants, Private Clubs, Taverns and Drinking Establishments. Restaurants that serve liquor can be developed and may serve liquor, as long as food is the primary service of the establishment. The CUP would continue to permit LC uses to include auto sales, leasing and service. The CUP has a wood screening fence along the south property line; the southeast corner of the CUP has a concrete parking garage which screens the residential neighborhood to the south from the CUP. The CUP would keep all other development standards in place regarding signage, light pole height, landscaping, etc. This zone change and CUP amendment request is generated by the applicant's desire to have outdoor storage of contractor's materials and equipment; the CUP and zoning code would require screening of that storage from surrounding properties and streets.

North of the site is the below grade Kellogg Expressway. The site is not visible from the lowered freeway, but is visible from the eastbound, at-grade Kellogg access drive. South of the site, across Orme and Eilerts is SF-5 Single-family Residential (SF-5) and TF-3 Two-family Residential (TF-3) zoning with duplex and single-family residences. East of the site, across Fabrique is TF-3 and LC zoning with duplex residential and car sales development. West of the site, across Lightner is TF-3 and LC zoning with duplex residential and vehicle repair development.

**Analysis:** On December 3, 2015, the Metropolitan Area Planning Commission (MAPC) approved (12-0) the application subject to the following conditions:

- A. The CUP General Provision #6 shall be amended to require that all outdoor storage of materials shall be visually screened from all surrounding properties and public right of way; materials shall not be stored or stacked to where they are visible above screening fences from surrounding properties or public right of way.
- B. The applicant shall submit four revised copies of the CUP to the Metropolitan Area Planning Department within 60 days after approval of this case by the Governing Body, or the request shall be considered denied and closed.

On December 2, 2015, District Advisory Board (DAB) III reviewed the application and approved it 7-0.

No protest petitions have been received. The request can be approved with a simple majority vote.

**Financial Considerations:** Approval of this request will not create any financial obligations for the City.

**Legal Considerations:** The Law Department has reviewed and approved the ordinance as to form.

**Recommendation/Actions:** It is recommended that the City Council adopt the findings of the MAPC and approve the requested Zone Change and CUP Amendment, subject to the MAPC recommended conditions, and place the ordinance on the first reading (simple majority vote).

**Attachments:** CUP drawing, ordinance, and MAPC minutes.

METROPOLITAN AREA PLANNING COMMISSION HEARING**

**Case No.: ZON2015-00049 and CUP2015-00043** - Norma J. David and K-DA c/o Eric Larson (Owner), Baughman Company, P.A. c/o Russ Ewy (Agent) request a City zone change from LC Limited Commercial to GC General Commercial and CUP Community Unit Plan amendment to permit select GC General Commercial uses on property described as:

Lot 1, Block 1, Davis-Moore 13th Addition, Wichita, Sedgwick County, Kansas; TOGETHER WITH the East 130 feet of the West 140 feet of Lot 2, Block A, Hudson Addition to Wichita, Sedgwick County, Kansas; TOGETHER WITH Lot 1, Davis-Moore 5th Addition, Wichita, Kansas; TOGETHER WITH The West 110 feet of Lot 1, Universals First Addition to Wichita, Kansas; TOGETHER WITH the West 110 feet of Lot 2, except the South 160 feet, Universals First Addition to Wichita, Kansas; TOGETHER WITH that part of vacated Waverly Drive lying adjacent to said Universals First Addition, and said Davis-Moore 5th Addition.

**BACKGROUND:** The applicants request a zone change from LC Limited Commercial (LC) to GC General Commercial (GC) zoning and an amendment to DP-183, the Davis Moore Community Unit Plan (CUP). The CUP Amendment would add the following GC uses: Construction Sales and Service, Ancillary Fuel Storage, Outdoor Storage and Wholesale or Business Services. The amendment would also prohibit the following uses: Adult Entertainment, Sexually Oriented Business, Group Residence, Correctional Placement Residence, Asphalt/concrete Plants, Private Clubs, Taverns and Drinking Establishments. Restaurants that serve liquor can be developed and may serve liquor, as long as food is the primary service of the establishment. The CUP would continue to permit LC uses to include auto sales, leasing and service. The CUP has a wood screening fence along the south property line; the southeast corner of the CUP has a concrete parking garage which screens the residential neighborhood to the south from the CUP. The CUP would keep all other development standards in place regarding signage, light pole height, landscaping, etc. This zone change and CUP amendment request is generated by the applicant's desire to have outdoor storage of contractor's materials and equipment; the CUP and zoning code would require screening of that storage from surrounding properties and streets.

North of the site is the below grade Kellogg Expressway. The site is not visible from the lowered freeway, but is visible from the eastbound, at-grade Kellogg access drive. South of the site, across Orme and Eilerts is SF-5 Single-family Residential (SF-5) and TF-3 Two-family Residential (TF-3) zoning with duplex and single-family residences. East of the site, across Fabrique is TF-3 and LC zoning with duplex residential and car sales development. West of the site, across Lightner is TF-3 and LC zoning with duplex residential and vehicle repair development.

**CASE HISTORY:** The site was platted as four different additions: Universals 1<sup>st</sup>, Hudson, Davis Moore 5<sup>th</sup> and Davis Moore 13<sup>th</sup> between the years of 1965 and 1999. DP 183 was originally approved in 1988.

**ADJACENT ZONING AND LAND USE:**

NORTH:	SF-5	Kellogg Expressway, single-family residential
SOUTH:	TF-3, SF-5	Single-family residential, duplex
EAST:	LC, TF-3	Single-family residential, duplex, vehicle sales
WEST:	LC, TF-3	Single-family residential, duplex, vehicle repair

**PUBLIC SERVICES:** The CUP has seven access points from Kellogg Drive, and one minor access point from both Fabrique and Lightner. All other urban public services are available.

**CONFORMANCE TO PLANS/POLICIES:** The 2030 Wichita Functional Land Use Guide of the Comprehensive Plan identifies the site as “Regional Commercial.” The Regional Commercial category encompasses major destination areas (centers and corridors) containing concentrations of commercial, office, and personal service uses that have predominately regional market areas and high volumes of retail traffic. These areas are located in close proximity to major arterials or freeways. The range of uses includes major retail malls, major automobile dealerships and big box retail outlets with a regional market draw. Regional Commercial areas may also include higher density residential housing and uses typically found in Local Commercial areas. The Commercial Locational Guidelines of the Comprehensive Plan recommend that commercial sites should be located adjacent to arterials, should locate in compact clusters or nodes versus extended strip developments, should not put commercially generated traffic on residential streets, and should have site design features which limit noise, lighting and other activity from adversely impacting surrounding residential areas.

**RECOMMENDATION:** The existing CUP has standards for signage, access, light pole height, landscaping and screening which improve compatibility with surrounding residences. The proposed zone change and CUP amendment would permit outdoor storage of contractor’s materials and equipment. Staff feels that the CUP should ensure that this storage remains at a height visually screened from surrounding properties and public right of way. Based upon information available prior to the public hearings, planning staff recommends that the proposed CUP amendment and zone change be APPROVED, subject to the following conditions:

- A. The CUP General Provision #6 shall be amended to require that all outdoor storage of materials shall be visually screened from all surrounding properties and public right of way; materials shall not be stored or stacked to where they are visible above screening fences from surrounding properties or public right of way.
- B. The applicant shall submit four revised copies of the CUP to the Metropolitan Area Planning Department within 60 days after approval of this case by the Governing Body, or the request shall be considered denied and closed.

This recommendation is based on the following findings:

1. **The zoning, uses and character of the neighborhood:** North of the site is the below grade Kellogg Expressway. The site is not visible from the lowered freeway, but is visible from the eastbound, at-grade Kellogg access drive. South of the site, across Orme and Eilerts is SF-5 and TF-3 zoning with duplex and single-family residences. East of the site, across Fabrique is TF-3 and LC zoning with duplex residential and car sales development. West of the site, across Lightner is TF-3 and LC zoning with duplex residential and vehicle repair development.

2. **The suitability of the subject property for the uses to which it has been restricted:** The site is currently zoned LC, but can only be used for vehicle sales, leasing and service. The proposed zone change and CUP amendment will increase use flexibility for this site.
3. **Extent to which removal of the restrictions will detrimentally affect nearby property:** The proposed outdoor storage use of this site should have no impact on nearby property provided the outdoor storage is adequately screened.
4. **Conformance of the requested change to the adopted or recognized Comprehensive Plan and policies:** The 2030 Wichita Functional Land Use Guide of the Comprehensive Plan identifies the site as “Regional Commercial.” The Regional Commercial category encompasses major destination areas (centers and corridors) containing concentrations of commercial, office, and personal service uses that have predominately regional market areas and high volumes of retail traffic. These areas are located in close proximity to major arterials or freeways. The range of uses includes major retail malls, major automobile dealerships and big box retail outlets with a regional market draw. Regional Commercial areas may also include higher density residential housing and uses typically found in Local Commercial areas. The Commercial Locational Guidelines of the Comprehensive Plan recommend that commercial sites should be located adjacent to arterials, should locate in compact clusters or nodes versus extended strip developments, should not put commercially generated traffic on residential streets, and should have site design features which limit noise, lighting and other activity from adversely impacting surrounding residential areas.
5. **Impact of the proposed development on community facilities:** The proposed zone change and CUP amendment should have minimal impact on community facilities, and no more impact than previous uses on this CUP.

JESS MCNEELY, Planning Staff presented the Staff Report.

FOSTER referenced the conditions stated on the planning document eliminating the requirement for a masonry wall along the south side of Orme Street and making it a wooden fence. He said one of the reasons given is possible expansion. He said he can't see the applicant going across Orme Street to expand. He asked if staff was comfortable with that provision and asked about the discussion regarding the condition.

MCNEELY commented that condition has been on the plan quite a few years. He said staff did not see changing the use into a contractor's yard as an opportunity to change out the existing screening fence with a masonry wall. He recommended keeping the provision as it has been for years.

DAILEY asked what happens if they don't maintain the fence.

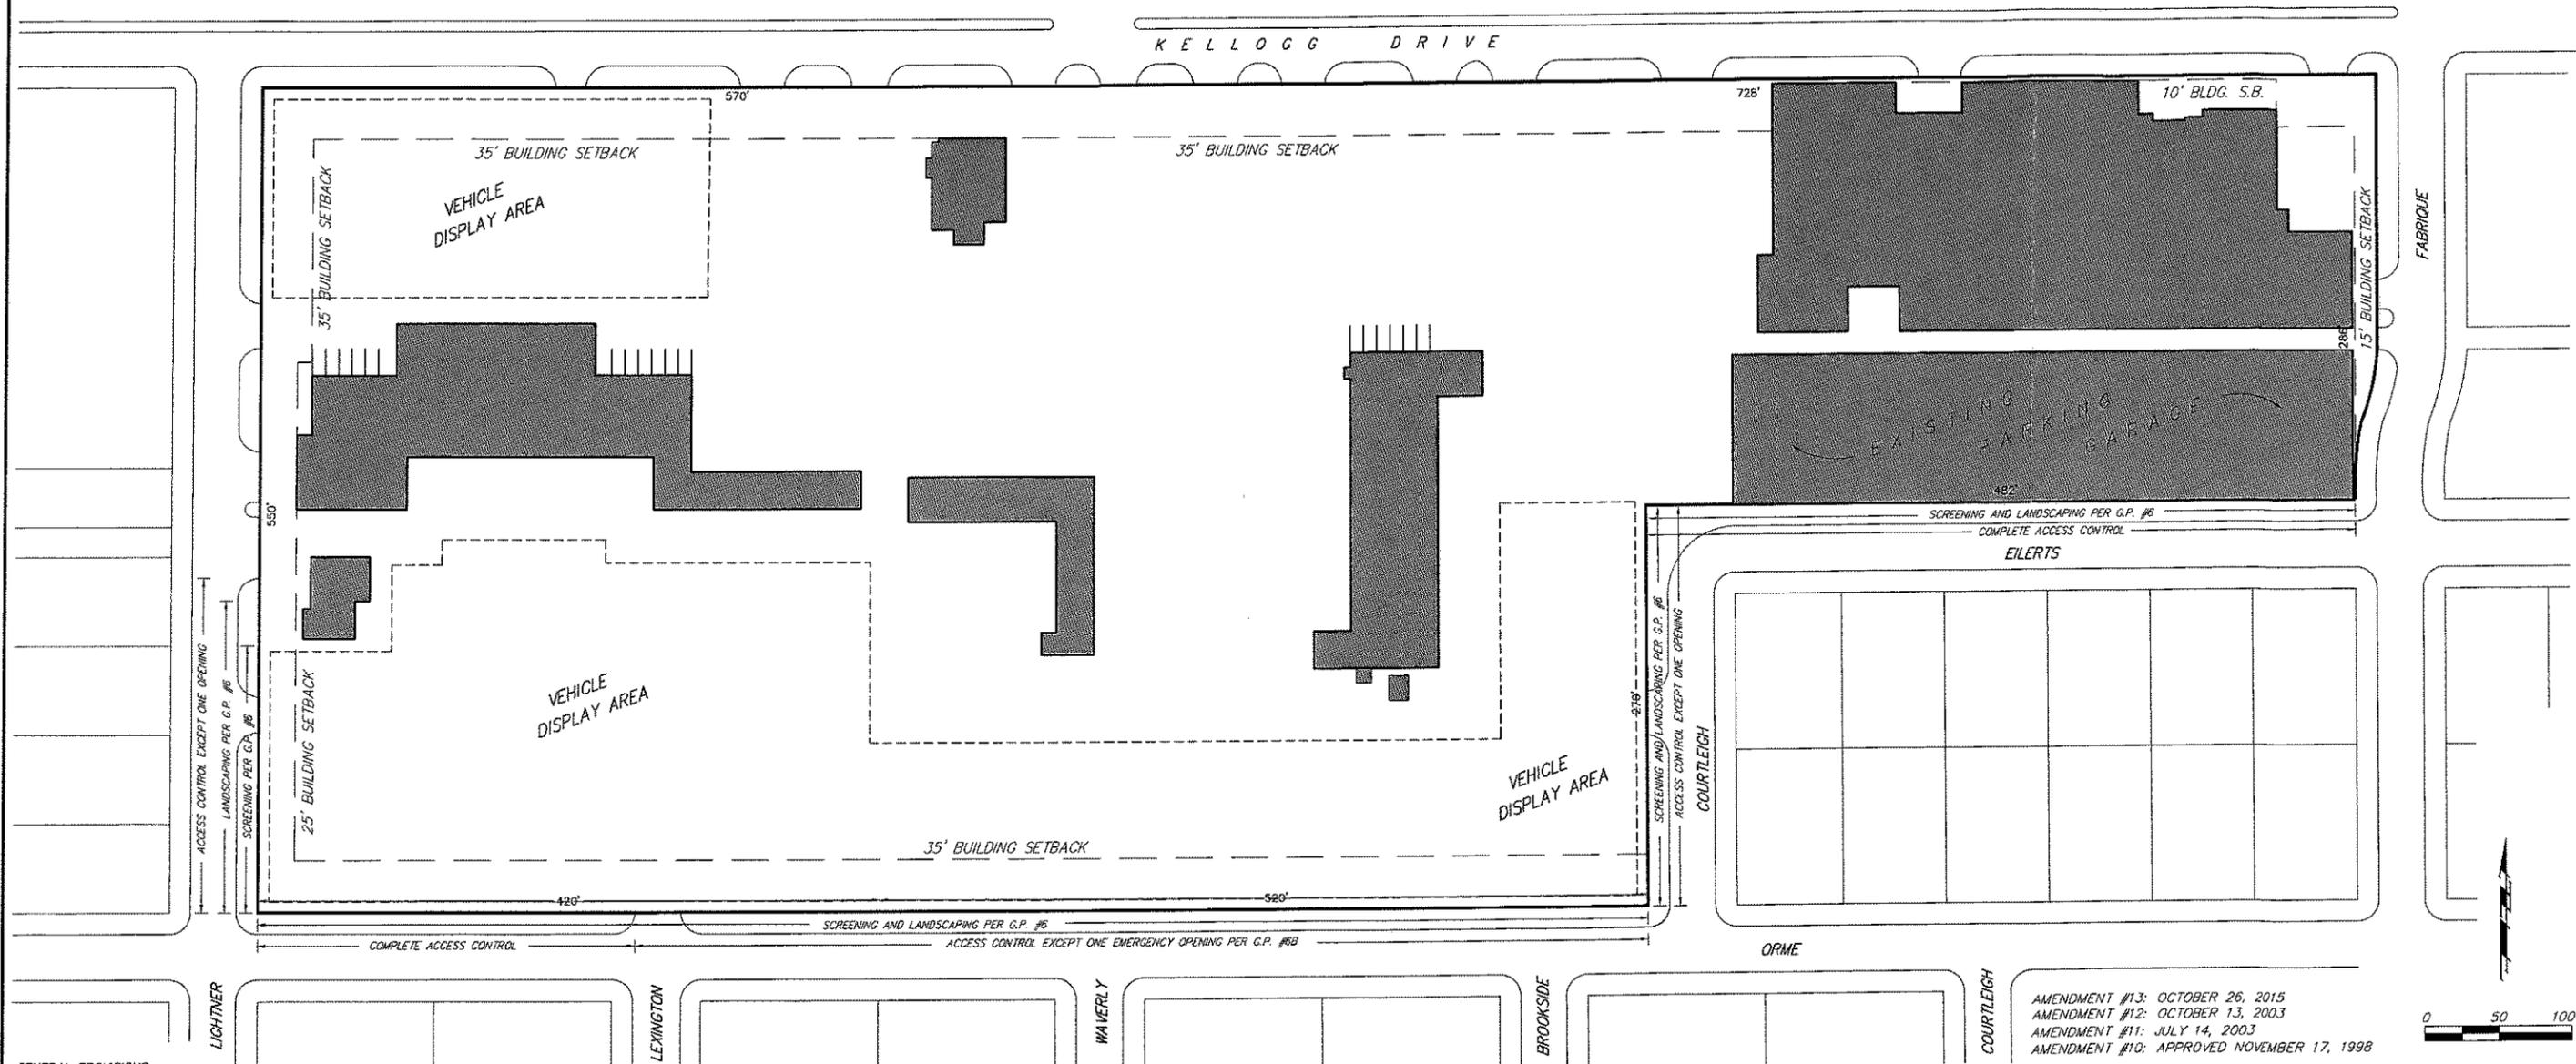

MCNEELY replied that was a Code Enforcement issue.

**MOTION:** To approve subject to staff recommendation.

MCKAY moved, JOHNSON seconded the motion, and it carried (12-0).

City Council Meeting  
January 5, 2016**

**TO:** Mayor and City Council

**SUBJECT:** VAC2015-00028 - Request to Vacate Portions of a Platted Setback and a Utility Easement Dedicated by Separate Instrument on Property Generally Located on the Northeast Corner 21st Street North and Maize Road (District V)

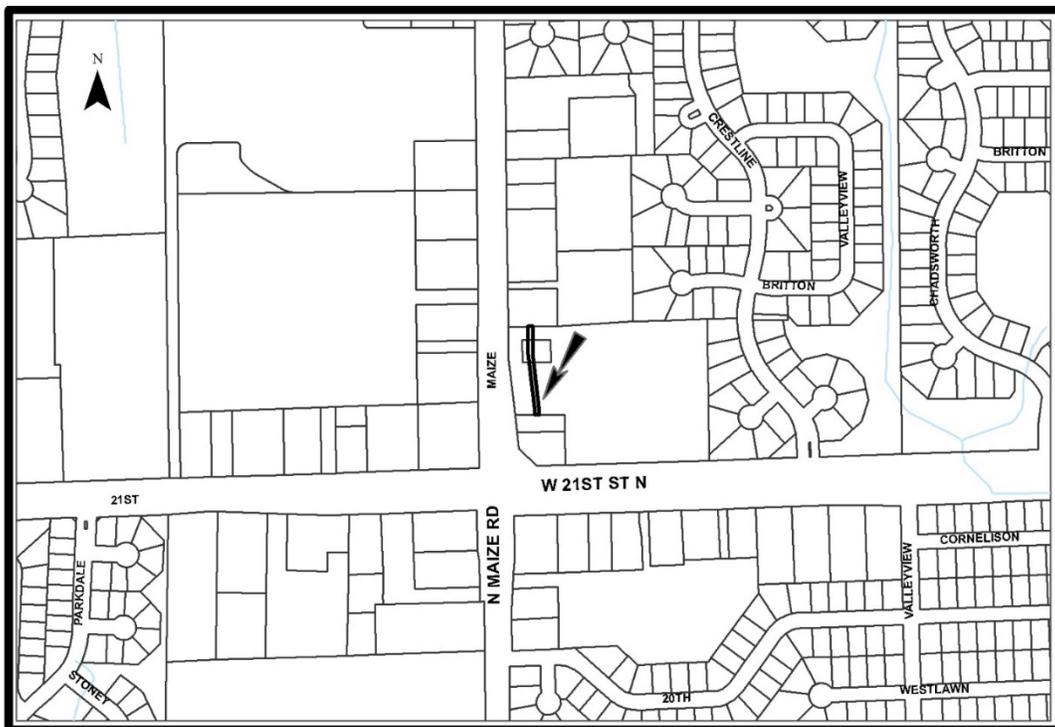

**INITIATED BY:** Metropolitan Area Planning Department

**AGENDA:** Planning (Consent)

---

**Staff Recommendation:** Staff recommends approval of the vacation request.

**MAPC Recommendation:** The Metropolitan Area Planning Commission recommends approval of the vacation request (11-0).

**Background:** The applicant proposes to build a canopy for the drive through pharmacy, which encroaches into a platted setback and a utility easement dedicated by separate instrument. The applicant is requesting the vacation of the east 20 feet of the platted 100-foot setback running parallel to the west property line of Lot 4, Chadsworth Commercial 2nd Addition. The Limited Commercial (LC) zoned subject is part of Community Unit Plan CUP DP-204 overlay. The minimum street side yard or front yard setback for a CUP is 35 feet; the applicant's request leaves 80 feet of setback.

The applicant is also requesting the vacation of the east portion of a 31.11-foot long section of a 20-foot wide utility easement dedicated by separate instrument; Film 2881, Page 4832. There is a sewer line located within the described portion of the subject easement, which is located in Lot 4, Chadsworth Commercial 2nd Addition. The applicant has provided a replacement easement. The Chadsworth Commercial 2nd Addition was recorded with the Register of Deeds August 14, 1995.

**Analysis:** The Metropolitan Area Planning Commission (MAPC) voted (11-0) to recommend approval of the vacation request. No one spoke in opposition to this request at the MAPC's advertised public hearing or its Subdivision Committee meeting. No written protests have been filed.

**Financial Considerations:** All improvements are to City standards and at the applicant's expense.

**Legal Considerations:** The Law Department has reviewed and approved, as to form, the Vacation Order and the utility easement dedicated by separate instrument. The original Vacation Order and the utility easement dedicated by separate instrument will be recorded with the Register of Deeds.

**Recommendation/Actions:** It is recommended that the City Council follow the recommendation of the Metropolitan Area Planning Commission and approve the Vacation Order (simple majority of four votes required) and authorize the necessary signatures.
