SECTION 601

GENERAL

Unless otherwise specified in the contract documents, KDOT Standard Specifications, including all applicable KDOT Special Provisions, shall be used for the following items of work in bridge and reinforced concrete box culvert construction.

1. Piling
2. Concrete Structures
3. Precast Prestressed Concrete Members
4. Steel Structures
5. Reinforcing Steel
6. Steel and Aluminum Handrails
7. Bridge Deck Patching
- *8. Hydrodemolition
9. Silica Fume Overlay for Concrete Bridge Decks
10. Latex Modified Overlay for Concrete Bridge Decks
11. Low Slump Concrete Overlay for Concrete Bridge Decks

* The contractor must obtain a National Pollutant Discharge Elimination System (NPDES) permit when Hydrodemolition is used. The permit may be obtained through KDHE.
