

City of Wichita Stormwater Permit Application for Enrollment in Offsite BMP Program

For Authorization to Discharge Stormwater Runoff from Construction Activities
In Accordance with the Kansas Water Pollution Control General Permit
Under the National Pollutant Discharge Elimination System (NPDES)

Submission of this Permit application constitutes notice that the identified parties in the "OWNER OPERATOR" Section of this form have requested and received a copy of a signed NOTICE OF INTENT (NOI) from the Kansas Department of Health and Environment (KDHE). Becoming a permittee within the Wichita city limits obligates the discharger to comply with the terms and conditions of the general permit as well as all local regulations and ordinances. Completion of this Permit application does not provide automatic coverage under the general permit. City of Wichita Engineering will notify owners or operators and or agents of such, when Stormwater Permit application and supporting documentation is incomplete, deficient, or denied.

Submit completed forms to City of Wichita Engineering 455 N. Main 7th floor Wichita Ks. 67202

- On File Attached ERU plan sheet.
- On File Attached Project narrative.
- On File Attached Engineer Project certification statement, & supplemental drainage calculations.

City of Wichita Stormwater Permit Application for Enrollment in Offsite BMP Program

OWNER/OPERATOR STORMWATER QUALITY COMPLIANCE STATEMENT

The undersigned, being the owner of a facility that has applied to the City of Wichita, for a storm sewer tap/discharge/ Stormwater permit, hereby acknowledges the requirements of Section 16.32 of the Wichita City Code which states that only Stormwater can be discharged into the municipal storm sewer system, with the following exceptions:

A discharge authorized by, and in full compliance with, a federal or state NPDES permit.

1. A discharge from emergency firefighting.
2. A discharge from water line flushing.
3. A discharge from lawn watering, landscape irrigation, or other irrigation water.
4. A discharge or flow from a diverted stream flow or natural spring.
5. A discharge or flow from uncontaminated ground water or rising groundwater.
6. Uncontaminated groundwater infiltration.
7. Uncontaminated flow from a foundation drain, crawl space pump, footing drain, or sump pump (no discharge onto street per City Code 10.04.060 City only).
8. A discharge from a potable water source not containing any harmful substance or material from the cleaning or draining of a storage tank or other container.
9. A flow from air conditioning condensation that is unmixed with water from a cooling tower, emissions scrubber, emissions filter, or any other source of pollutant.
10. Flows from individual residential car washing.
11. A flow from a riparian habitat, wetland, or natural spring.
12. Stormwater runoff from a roof that is not contaminated by any runoff from an emissions scrubber or filter or any other source of pollutant.
13. Residential heat pump discharges.
14. Swimming pool water, excluding filter backwash, that has been de-chlorinated so it contains no harmful quantity of chlorine, muriatic acid or other chemical used in the treatment or disinfection of the swimming pool water or in pool cleaning.

I further understand that allowing any other discharge will subject me to the penalties provided in said City Section 16.32, as well as other federal and state penalties.
