**Subject:** USSSA Slowpitch & Basketball - No online roster - no points

Directors,

We have implemented the "No Roster = No Points" within the online system for Slowpitch & Basketball.

Any team adding their roster after tournament results have been input, will be awarded points for all of their previous tournaments, the day after their roster has been entered.

You can enter the results of a tournament and will not have to do anything else for teams to get their points. Teams will get their points during the nightly process.

So if a team adds their roster at 1 PM, their points will be updated/available the next day by 7 AM.

The minimum number of active players for Slowpitch is 10 and Basketball is 5.

Kelly
