

## **Concert Hall Renovation Quick Facts**

- A total of 288 dimmer modules were removed from the stage area, 48 of which were donated to Derby Middle School. The remaining 240 dimmers are also available for donation to schools. Interested schools should contact Century II Technical Director Kyle Longwell at (316) 303-8638 or e-mail [klongwell@wichita.gov](mailto:klongwell@wichita.gov).
- 33.04 tons of cast iron and steel from the original seats were recycled, resulting in a \$5,000 return that was put back into the project.
- 8,000 pounds of cardboard from the shipping of the seats was recycled.
- 25,000 feet (almost five miles) of wire rope and 7,500 feet of polyester rope were used during the rigging replacement.
- 75,000 feet of wire (more than 14 miles) was used during the dimmer replacement.
- 430 gallons of paint were used to repaint Concert Hall's walls, floor and ceiling.
